DEPARTMENT OF INDUSTRIES AND LABOUR.

POSTS AND TELEGRAPHS BRANCH.

Simla, the 22nd October 1926.

No. 4-T.—In exercise of the powers conferred by section 7 of the Indian Telegraph Act, 1885 (XIII of 1885), and in supersession of rules 150 to 371 of the rules contained in the Notification of the Government of India in the Department of Commerce and Industry No. 3975-137, dated the 16th September 1909, and No. 362-20, dated the 13th January 1912, the Governor-General in Council is pleased to make the following rules and orders, to have effect from the 1st November 1926 :—

SECTION III.—RULES FOR FOREIGN TELEGRAMS, PRIVATE, STATE AND PRESS FOUNDED ON INTERNATIONAL TELEGRAPH REGULATIONS.

NOTE.—The Convention and Articles quoted in the margin denote the International Telegraph Convention and the Articles or the Regulations (Lisbon edition) annexed thereto. Points not specifically provided for in these Rules are dealt with in the manner prescribed in the Convention.

GENERAL.

150. *Foreign Telegrams* are those which are sent to, or received from, places beyond Indian limits other than places in Ceylon.

Such telegrams are subject to the regulations laid down by the *International Telegraph Convention*, to which the Government of India is a party. None of the parties to the Convention accept any responsibility on account of Foreign telegrams. (For tariffs and rates, see Rules 241 to 243.)

151. *Legibility and Form.*—To secure accuracy and rapidity of transmission, senders of telegrams are advised to write them in a clear and unmistakable hand and on the proper forms, which can be obtained free of charge at all Telegraph Offices (Rule 4). Telegrams written on plain paper are, however, accepted at all offices.

NOTE.—Books containing the forms for Foreign telegrams can be purchased at the principal Government Telegraph Offices, price with counterfoils two annas and without counterfoils one anna each.

152. *Offices where Foreign Telegrams are accepted.*—Foreign telegrams are accepted at all Government Telegraph Offices and also at a certain number of Railway Telegraph Offices.

153. Foreign telegrams are only accepted at Military Field Telegraph Offices when fully prepaid in postage stamps, and then at the sender's risk.

154. Foreign telegrams cannot be accepted at any Railway Telegraph Office at places where there is also a Government Telegraph Office.

155. *Objectionable Telegrams.*—The parties to the Convention reserve to themselves the right of stopping the transmission of any Private telegram which may appear dangerous to the security of the State, or contrary to the laws of the country, to public order, or decency. The Terminal or any Intermediate Office may exercise this control on condition of immediately advising the Office of origin. Con. 7 and Art. 46, 1 and 2.

156. Telegraph Offices in India are required to refuse to accept any telegram which appears to be of the above character. Should the character of a telegram be open to doubt, the matter will be referred to a Secretary to Government, if the telegram be tendered at a seat of Government, or to the chief Civil or Military Officer if tendered at any other place.

157. The office of delivery may stop telegrams addressed to a telegraphic re-forwarding agency which is known to be organized with the object of enabling the correspondents of third parties to evade the full payment of the charges due for transmission without intermediate retransmission between the office of origin and the office of ultimate destination. Offices exercising this right must at once inform the office of origin. Art. 46, 4.

158. Each of the contracting Governments reserves to itself the right to suspend the International Telegraph service for an indefinite period, if it deem necessary, either generally or only upon certain lines and for certain classes of correspondence. Con. 8

159. *General division.*—Telegrams are divided into four classes :— Con. 5

(a) State (or Government) Telegrams (Rule 207).

(*b*) Service telegrams (Rule 209).

(*c*) Private telegrams.

(*d*) Press telegrams (Rules 335 to 338).

160. Telegrams shall be transmitted in the following order :—

(*a*) Telegrams relating to the security of human life in maritime or aerial navigation,

(*b*) State (Government) telegrams,

(*c*) Urgent service telegrams,

(*d*) Meteorological telegrams, Art. 33, 1 and 2.

(*e*) Urgent service advices and service advices relating to the disturbance of lines, cables, etc.

(*f*) Urgent Private telegrams,

(*g*) Non-urgent service telegrams and advices,

(*h*) State telegrams for which the sender has requested priority in transmission and non-urgent private telegrams,

(*i*) Press telegrams,

(*j*) Deferred telegrams.

WRITING AND ACCEPTANCE OF TELEGRAMS.

161. The text of telegrams may be in Plain or Secret language, the latter being subdivided into Code language and Cipher language. Each of these languages may be used alone or together with the others in the same telegram. All Administrations accept in all their relations telegrams in plain language. They may refuse to forward or receive for delivery private telegrams expressed wholly or partly in secret language, but they must allow these telegrams to pass in transit unless the service be suspended. Con. 6 and Art 7, 1 and 2

162. *Plain language* is that which presents an intelligible meaning in one or more of the languages authorized for International telegraph correspondence. The following are the languages authorized for Foreign telegrams in Plain language subject to the conditions of Rule 173 : Art. 6, 1 and 3

Albanian.	Esperanto.	Japanese.	Roumanian.
Annamese.	Finnish.	Icelandic.	Russian.
Annamite.	French.	Latin.	Servian.
Arabic.		Luxembourgeois.	Slavonic.
Armenian.	German.	Malay.	Spanish.
Bohemian.	Greek.	Maori.	Swedish.
Bulgarian.	Hebrew.	Norwegian.	Turkish.
Croatian.	Hungarian.	Oodooi.	Volapuk.
Danish.	Icelandic.	Persian.	Wendish.
Dutch.	Illyrian.	Polish.	Zulu.
English.	Italian.	Portuguese.	

163. In Private telegrams in any language other than Plain English, the Sender shall certify at the foot of the form (or at the back if more convenient) that the message does not contain combinations or alterations of words contrary to the usage of the language. (*See* Rule 235.)

Art. 9, 2. 164. By *"Telegrams in Plain Language"* those are meant of which the text is wholly in Plain language. The character of a telegram in Plain language is not, however, changed by the presence of registered addresses, Commercial marks, Exchange quotations, letters representing the signals of the International Code of Signals used in maritime telegrams, abbreviations in current use in ordinary or commercial correspondence, such as *resp., fob, cfi, cif, cof, stge, s/s., bl*, or any similar expression, the meaning of which is understood in the country of origin, or of a check word placed at the beginning of the text in bank and similar telegrams.

Art. 9, 1. 165. *Code Language* is composed of words not combined in intelligible phrases in one or more of the languages authorised for use in Plain language in telegraphic correspondence.

Art. 9, 3. 166. The words, whether real or artificial, must be formed of syllables which can be pronounced according to the ordinary usage of one of the following languages:—English, French, German, Italian, Spanish, Dutch, Portuguese or Latin. Artificial words must not contain the accented letters ä, é, ë, ï, ö, ü.

Art. 9, 3. 167. Words in Code language may not be longer than ten characters according to the Morse alphabet (Rules 173 and 174), the Groups aa, oe, ue, ee, ue, being counted as two letters each. The group "ch" is also counted as two letters in artificial words.

Art. 9, 4. 168. Groups which do not fulfil the condition of Rules 166 and 167 are considered as belonging to letter cipher language, Rule 170 (2), and charged accordingly. Groups formed by combining two or more plain language words contrary to the custom of the language, are not admitted. (See also Rule 235 *et seq.*)

169. In Private telegrams worded in Code language, the sender shall certify at the foot of the form (or at the back if more convenient) that the Code words are not combinations of two or more words in plain language contrary to the usage of the language.

Art. 10, 1. 170. *Cipher Language* is formed—

(1) Either of Arabic figures, or groups or series of Arabic figures with a secret meaning, or of letters (excluding the accented letters ä, é, ë, ö, ü, u), groups or series of letters with a secret meaning.

(2) Of words, names, expressions or combinations of letters not fulfilling the conditions of Plain language (Rules 162 to 164), or of Code language (Rules 165 to 167).

Art. 10, 2. 171. The combination, in one group, of figures and letters with a secret meaning is not allowed. It is desirable to avoid the use of Letter cipher, as far as possible, as it is less easy to transmit than pronounceable groups of letters, and is, therefore, more liable to error. In cases where it is necessary to employ letter cipher it should be arranged in groups of five letters in order to facilitate transmission.

Art. 10, 3. 172. The groups referred to in rule 164 are not considered as Letter cipher, i.e., as letters having a secret meaning.

Art. 11, 1. 173. *Characters*—Telegrams must be legibly written in characters which have an equivalent in the official table of telegraph signals, and which are used in the country where the telegram is presented.

Art. 11, 2 174. The following are the characters in use in India:—

(a) *Letters.*

A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, Ä, Á, Å, É, Ñ, Ö, Ü.

Art. 11, 7. Except in Code and cipher language, the combination "ch" counts as one character of the Morse alphabet; so also do the two vowels "aa", "ae", "ao", "oe" and "ue" commonly used to represent the continental modified vowels ä, ö, ü, ñ and ü.

(b) *Figures.*

Art. 11, 2 1, 2, 3, 4, 5, 6, 7, 8, 9, 0.

There are no telegraphic signals for Roman numerals such as I, II, etc.

(c) *Signs of punctuation, etc.*

Full stop (.), Comma (,), Semicolon (;), Colon (:), Note of interrogation (?), Note of exclamation (!), Apostrophe ('), Hyphen or dash (-), Brackets or signs of a parenthesis ( ), Inverted commas (" "), Bar or division (/), Underline.

Expressions like 30^a, 30^{me}, 30^{es}, 1^{er} 2^e (B) etc., cannot be reproduced by the apparatus; senders must substitute for them an equivalent which can be telegraphed, *e.g.*, for the expressions quoted above 30, power a, trentième, trentaine, pneus, secondo, B in diamond. Nevertheless the expressions 30^a, 3^{ab}, etc., 30 bis, 30 ter, etc., 30^I, 30^{II}, etc., 30^1, 30^2, etc., indicating a house number in an address are accepted as written even in an address appearing in the text or signature of a telegram but in transmission the number is separated from the letters or figures accompanying it by a (/). The same rule is applied in transmitting house numbers like 30A, 30B, etc. As regards the counting of the words for charging the bar (/) is not counted as a character in the group of figures or figures and letters composing the house number, even though the sender has himself written the bar on his copy. The expressions in question are consequently transmitted in the following form 30 a, 30 b, etc., 30/bis, 30/ter, etc., 30/1, 30/2, etc., 30/2, 30/2, etc., 30/a, 30/b, etc.
Art. 11, 4.

177. *Parts of a telegram.*—The different parts forming a foreign telegram should be written in the following order :—

178. *Special instructions.*—The sender should write upon the form, in the place provided for the purpose, such of the special instructions prescribed in Rule 174 (*d*) as he may desire to make use of.
Art. 13

179. In a multiple telegram (Rule 36) the sender must write the special instructions before each address to which they relate. In an urgent multiple telegram or deferred multiple telegram or a collated multiple telegram it is sufficient for the corresponding indication to be written once only before the first address.
Art. 13, 1.

180. Special instructions may be written in any form admissible but they are charged for and transmitted only in accordance with the abbreviated form provided in Rule 174 (*d*). If necessary the counter clerk should cross out the indication written by the sender and substitute for it the corresponding abbreviation placed between two double dashed lines thus =RPX= =TC=
Art. 13, 2

181. The sender may give instructions as to the routing of his telegram in accordance with the provisions of Rules 253 and 256.
Art. 13, 3

182. *Address.*—Every Address must contain at least two words, the first designating the Addressee, the second indicating the name of the Telegraph Office of destination. The latter should be spelt as in the *Official List of Offices* (*Nomenclature des bureaux télégraphiques*)—*vide* Rule 224.
Art. 15, 1

In telegrams for China groups of four figures may be used to designate the name and abode of the addressee.

183. The Address must contain all the particulars necessary to ensure the delivery of the telegram to the Addressee without search or enquiry.
Art. 14, 1.

184. For large towns, the name of the street and the number of the house must be given, or in the absence of these particulars the profession of the Addressee or any other useful information. For small towns, the name of the Addressee must, if possible, be accompanied by additional particulars for the guidance of the office of destination, in case the name of the addressee has been altered in transmission.
Art. 14, 2

185. Particulars of the address must be written in French or in the language of the country of destination. Surnames, Christian names, the names of firms and names of the place of delivery are, however, accepted as written by the sender.
Art. 14, 3.

186. The address may be composed of the name of the addressee followed by the word "telephone" and his telephone number; though it will not necessarily follow that the telegram will be telephoned to the addressee. The address is then worded as follows
Art. 14, 4
Smith telephone Victoria 5074, London

The address may also be composed of the name of the addressee and his post office box number. The address is then worded as follows:—
Post post box 275, London.

187. When a telegram is addressed to one person care of another, the Address must contain, immediately after the name of the actual Addressee, one of the indications "*chez*," "*aux soins de*," "*c/o*" "*with*," "*care of*," or any other equivalent
Art. 14, 5.

188. The name of the Telegraph Office of destination must be placed after the words in the Address which designate the addressee and, when given, his place of residence. It must be written as it appears in the first column of the official *Nomenclature* of offices. This name may only be followed by the name of the country or of the territorial subdivision, or by both of these. If both are used the name of the territorial subdivision must come immediately after the name of the Telegraph Office of destination.
Art. 14, 6.

189. When the name of the locality given as the destination does not appear in the official Nomenclature, the sender shall write after this name either the name of the country or of the territorial subdivision or other particulars which he considers adequate for the circulation of his telegram which, however, is only accepted at the sender's risk. The same course is followed when there are several offices of the name given and the sender is not in a position to furnish definite information from which the official designation of the locality can be traced.
Art. 14, 7.

190. *Telegraph offices in the neighbourhood of London.*—In telegrams addressed to telegraph offices in the neighbourhood of London, the names of which appear in the Official List of Offices (Rule 182) it is not necessary to add the word London in the Address. Telegrams for places in London itself, the names of which do not appear in the Official List of Offices (Rule 182) cannot be accepted unless addressed London as the name of the Terminal Office.

Art. 14, 9.

191. The address of telegrams addressed *poste restante* or *telegraphe restant* (Rule 264) must give the name of the addressee. The use of initials, figures, christian names only and fictitious names is not allowed in such messages.

Art. 14, 10.

192. *Insufficient address.*—Telegrams, the addresses of which do not satisfy the conditions laid down in Rules 182, 189 and 191 shall be refused.

Art 14, 11.

193. Notwithstanding anything contained in Rule 192 a telegram of which the address is insufficient will be accepted at the Sender's risk, if he permits in wording it.

Art. 14, 12.

194. In all cases the Sender bears the consequences of an insufficient address.

Art. 14, 8.

195. *Abbreviated addresses.*—The address may be written in an abbreviated form, but the right of an addressee to have telegrams so addressed delivered to him is subject to a special arrangement made between such addressee and the Telegraph office which has to deliver the telegram.

196. Registered Abbreviated Addresses are treated as plain language (Rule 226), when occurring in the *Address* as the *Sender's name* in both Plain and Code language telegrams, and also in the *text* of Plain language telegrams. In such cases the Sender should certify at the foot of the form that the words are registered abbreviated addresses. When in the *text* of a Code language telegram, they are treated according to Rule 226.

Art. 15, 1.

197. *Text.*—Telegrams without text are not admitted.

Art 15, 2.

198. *Sender's name.*—The Sender's name is not compulsory; it may be written by the Sender in a customary abridged form or replaced by a registered address.

Art 15, 4 and 5.

199. *Signature.*—The true signature and address of the Sender (which are neither charged for nor transmitted) must always be written at the foot of the telegram. In the case of telegrams from a mercantile firm, if the name of the firm is written, it will be accepted, but if stamped, it must be attested by the signature, or initials of a responsible member of the firm.

Art 15, 3.

200. The Sender of a Private telegram must prove his identity, when requested to do so by the office of origin.

State Telegrams.

Con. 6.

201. *Definition.*—State (or Government) telegrams include those which emanate from the Chief of the State, Ministers, Commanders-in-Chief of Land or Sea Forces, and Diplomatic or Consular Agents of the Contracting Governments and the replies to such telegrams. Such telegrams bear the service instruction "State" inserted by the office of origin at the end of the preamble.

202. *From British Officials.*—The only British Government Officials in and outside India who are allowed to send Foreign State telegrams are those who have been specially authorised to do so by the Government of India. Foreign telegrams classed State, tendered by Officials not so authorised will be treated as private telegrams.

Art. 15, 2.

203. *Replies to State telegrams.*—The right to send a reply as a State telegram is established by the production of the original State telegram.

Art. 15, 3.

204. *From Consular Agents.*—The telegrams of Consular Agents carrying on private business are only regarded as State telegrams when they are addressed to State Officials, and relate to official matters. Nevertheless, telegrams which do not fulfil these conditions are accepted by offices and transmitted as State telegrams, but any office transmitting such telegrams shall immediately report the matter to the Postmaster General.

Art. 15, 4 and 5.

205. *Language.*—State telegrams may be expressed in Secret language in all relations. State telegrams which do not fulfil the conditions of Rules 182 to 172 are not refused, but are reported by any office which observes the irregularities to the Postmaster General.

Art 15, 6

206. For State telegrams expressed in plain language partial repetition is compulsory. Those expressed wholly or partly in secret language (code, figure or letter cipher) must be repeated in full by the receiving office.

Art. 15, 7.

207. The sender of a Government telegram may renounce the priority of transmission conferred on State messages by Rule 180 (*b*). In that case the telegram must bear the service instruction "without priority" written by the sender, and the telegram is treated as regards order of transmission like an ordinary private telegram [Rule 160 (*b*)].

Art. 17.

208. The Secretary General of the League of Nations is entitled to send State telegrams. The replies to these telegrams are also classed "State" (Rule 203).

Service Telegrams.

Art. 18, 1, Con. 5.

209. Service telegrams are those which emanate from the Telegraph Administrations of the Contracting States and which relate, either to the International Telegraph Service or to objects of public interest agreed upon between the said Administrations. Service telegrams are divided into Service telegrams properly so called and Service Advices. All service telegrams are transmitted free, except in the case specified in Rules 210 to 212.

Art. 18, 2

Service advices are classed urgent or ordinary according to the nature of their contents.

Art. 18, 3

Paid Service Advices.

Art. 18, 1.

210 During the period of preservation of records (Rule 350) the Sender and the Addressee (or the authorised representative of either of them) of any telegram already transmitted or in course of transmission may have information obtained or instructions given by telegraph about the telegram after first, if necessary, establishing their status and identity. They must deposit the following amounts:—

(*a*) The cost of the telegram conveying the request.

(*b*) The cost of a reply telegram if one is needed.

They may also, with the object of rectification, have a telegram which they have sent or received, repeated entirely or in part, either by the office

of destination or origin or by an intermediate office.

Art. 19, 4

211. When the addressee asks for repetition, he must pay at the rate fixed for transmission for each word to be repeated. This charge covers the whole cost of the request and the reply. The Addressee of a telegram may have it repeated from the Frontier Telegraph Office in India or Burma (Rule 243) at which it was dealt with on depositing the charge for the transmission of an Inland *Express* telegram to be delivered in India, namely, two annas a word with a minimum of one rupee and eight annas.

When a Government official asks for the repetition of a telegram received by him in his official capacity he shall not be required to prepay the charge for repetition; but if no error of the telegraph service is revealed by such repetition the said charge shall thereafter be recovered from him.

Art. 19, 5.

212. A telegram sent at the request of the Addressee, in order to obtain the repetition of a passage supposed to be erroneous, implies always a telegraphic reply, and the insertion of the indication RPX is not necessary. In other cases, in which a telegraphic reply is desired, this indication must be used. If the sender asks that the reply should be sent by post the service advice must bear the indication "lettre" in place of RPX. A charge of four annas is made for such reply.

Art. 19, 6.

213. Rectifying, completing or cancelling telegrams, and all other communications, relating to telegrams already transmitted, or in course of transmission when they are addressed to a Telegraph Office, must be exchanged between the Offices solely in the form of Paid Service Advices at the expense of the Sender or the Addressee making the demand.

Art. 19, 6.

214. The charges for the abovementioned Service Advices are refunded under the conditions fixed by Rule 338, when the advices are necessitated by errors of the telegraph service.

Art. 19, 7.

215. When the words of which repetition is requested are indistinctly written, the office of origin before giving a repetition, makes enquiry of the Sender. If he cannot be found, the office of origin adds to the repetition a note: "Writing doubtful".

Art. 19, 7.

216. When the repetition relates to a telegram which has reached the office of origin from the Sender by telephone or by a private telegraph wire, that office before giving a repetition asks the sender to repeat the words in question. In this latter case, if one or more of the words thus repeated are not the same as they were in the telegram, the office gives the desired repetition as corrected by the Sender but adds to the text of the Service Advice the indication CTP (*comptez taxe payée*, or return charge paid) followed by the number, in letters, of words corrected by the Sender, the charge for which is not to be refunded, thus:—CTP one, CTP two, etc.

Art. 19, 8.

217. The various communications mentioned above may be made by post through the agency of the Telegraph Offices of origin or destination. They are forwarded under registered cover at the expense of the applicant who must also, pay the cost of a reply by post when he requires one.

COUNTING OF WORDS.

Art 20, 1.

218. *What is counted.*—Every thing that the Sender writes on his copy for transmission to his correspondent is charged for and therefore included in the number of words. Nevertheless, dashes used only to separate on the Sender's copy the different words or groups of the telegram are neither charged for nor transmitted. Signs or punctuation, apostrophes and hyphens are only transmitted, and consequently charged for, at the special request of the Sender.

Art. 20, 1.

219. When signs of punctuation, instead of being used separately are repeated one after the other, they are charged for like groups of figures (Rule 233).

Art. 20, 1.

220. The route indication although written by the sender is not charged. (Rule 251 *et seq.*)

Art. 20, 2.

221. *Preamble.*—The name of the office of origin, the number of the telegram, the date and time of handing in, Route indications and the words, numbers or signs, which form the preamble, and are added by the Telegraph Office for official purposes, are not charged for; such of these particulars as reach the office of delivery and, in all cases, the date and time of handing in appear on the copy delivered to the addressee.

222. All telegrams are timed by the Standard time, which in India is 5½ hours, and in Burma 6½ hours, in advance of Greenwich time.

Art. 20, 3.

223. The Sender may include any or all of the particulars referred to in Rule 221, in the *text* of his telegram, but in that case they will be charged for.

Art. 21, 1.

224. In all Languages the following are each counted as one word:—

I. Each special Instruction written in the abridged form authorised in Rule 174 (*a*).

II. In the Address:—

(*a*) The name of the telegraph office of destination when written as given in the first column of the Official Nomenclature of offices or *Nomenclature des bureaux télégraphiques* (Rule 182) and completed, if necessary, by the particulars also given in that column.

(*b*) The name of the telegraph office of destination completed by name of the country or territorial sub-division when the name of the office has not yet been published in the Official Nomenclature (Rule 189).

(*c*) The names of territorial sub-divisions or countries, respectively, if they are written as given in the said Nomenclature, or of their alternative names as given in its preface.

(*d*) Initial letters Standing for prenames, christian names, titles, etc. The joining together of such letters into groups is inadmissible.

III. In Telegraphic Money Orders the name of the post office of issue, the name of the post office of payment and that of the locality in which the payee lives.

IV. Every Code word which fulfils the requirements of Rules 165 to 167.

V. Every isolated character, letter or figure and each sign of punctuation, apostrophe or hyphen, transmitted at the request of the Sender (Rule 218).

VI. An underline.

VII Parenthesis (the two signs forming).

VIII. Inverted commas, i.e., the two signs placed at the commencement and end of one and the same passage.

Art. 21, 2.

225. *Plain language.*—In telegrams of which the text is entirely in Plain Language, each single word and each authorised compound * is charged at the rate of 15 characters to the word according to the Morse

* See also Rule 164.

Alphabet plus one word for the excess if any. The same method of counting applies to bank telegrams and telegrams of a similar kind containing a check word as the first word of a plain language text (Rule 164). The length of the check word may not however exceed 10 characters.

226. In plain language telegrams, Registered Abbreviated Addresses (Rule 196), whether used as the Address (Rule 231) or in the place of the Sender's name, or occurring in the text, are always treated as words in plain language and counted at the rate of 15 characters to the word.

Art. 21, 4. 227. *Code language.*—In code language the maximum length of a word is fixed at ten characters, counted in accordance with the provision of Rule 167.

Art. 21, 4. 228 *Mixed telegrams.*—In a mixed telegram of which the text contains both plain language words and code words, the plain language words as well as the code words in the text are counted at the rate of 10 letters to a word.

This rule applies also to proper Names, including Registered Addresses (Rule 196).

Art. 21, 4. 229. If the text of the mixed telegram also includes Cipher language, the Cipher groups are counted according to the provisions of Rule 233

Art. 21, 4. 230. If the mixed telegram contains only Plain language and Cipher language, the Plain language words are counted according to the provisions of Rule 229, and the Cipher groups according to those of Rule 233.

Art. 21, 5. 231. The Address or Sender's name in telegrams of which the text is written wholly or partly in Code language is charged according to the provisions of Rules 224 and 225.

Art. 21, 6. 232. *Use of apostrophes and hyphens.*—Words separated by an apostrophe or joined by a hyphen are counted as separate words.

Art. 21, 7. 233. *Figures, letter-cipher and commercial marks.*—Groups of figures or of letters, commercial marks composed of figures and letters, the number of a cheque or currency note and all references in State telegrams are counted at the rate of five figures, or letters to a word, plus one word for any excess. Each of the groups aa, ai, ao, oe, ue and ch is counted as two letters.

When commercial marks form part of the text of a telegram, the Sender should certify them to be such at the foot of the form.

Art. 21, 7. 234. *Signs used with figures or letters.*—Decimal points or full stops, commas, colons, dashes and bars of division are each counted as a figure or a letter in the group in which they appear. This also applies to letters or figures added to a house number in an address, even when the address is in the text or in the signature (i.e., "Person from") of a telegram.

Art. 21, 8. 235. *Combinations or alterations of words* contrary to the usage of the language are not allowed (Rule 165). The same rule applies when combinations or alterations are disguised by reversing the order of letters or syllables. Nevertheless, the names of towns and countries, family names belonging to one person, the full names of places, squares, boulevards, streets and other public ways, the names of ships, whole numbers, fractions, decimal or fractional numbers, written in words and compound words admitted as such in English and French which can be justified, if necessary may be passed as single words, subject to the limit of 15 or 10 letters, as the case may be (Rules 225 and 227). Numbers written in words which represent single figures or groups of figures, e.g., thirtythirty in place of 3030, sixfourtyone in place of 6441 are also admitted and counted at the rate of 15 letters or 10 letters to a word.

Art. 21, 9 and 10. 236. *Counting by office of origin decisive.*—The counting of words by the Office of origin is decisive, both for purposes of transmission and of the International Accounts. When, however, a telegram contains combinations or alterations of words of a language other than those of the country of origin contrary to the usage of the language, the office of destination is empowered to recover from the addressee the amount of the under-charge. In this case the telegram is not delivered to the Addressee until he has paid the under-charge. If the addressee should decline to pay, a Service Advice is sent to the Office of origin, explaining the cause of non delivery and mentioning the amount of the under-charge due. Should the Sender, duly notified of the reason for non-delivery, agree to pay the under-charge, a Service Advice is sent to the Office of destination which then delivers the telegram if it has been retained.

In applying this Rule in India the language of the country is considered to be *English, French* or *Portuguese*, and in the case of telegrams addressed to certain offices in Persia, *Persian*.

Art. 21, 11. 237. When the Office of origin finds that an under-charge has been made it may collect the deficiency from the sender and it acts similarly when the irregularity is brought to its notice by a transit office or by the office of destination. Nevertheless, neither of these two latter offices may suspend the transmission or delivery of the telegram, except in the case provided for in Rule 236.

238. *Surnames.*—Names such as Macdonald (or McDonald), FitzGerald, O'Neil, DeMorgan, D'Cruz, DelaRue, StJohn, VandeBrande, DuBois, will be counted as one word each, even though written with Capital medial letters. They will, however, be signalled as single words without break, the apostrophe (where used) being omitted.

Art 23. 239. *Examples of counting.*—The following examples show how the rules for counting words are to be interpreted:—

TARIFFS AND CHARGES.

240. *Tariffs.*—The gold franc is the monetary unit employed in Foreign Tariffs, and all accounts with Foreign Administrations are settled in gold. Charges in India are subject to alteration in accordance with the changes in the rate of rupee sterling exchange. The Tariffs for Telegrams are made up of the shares of the different Administrations concerned, which may alter them from time to time. The Tariffs vary also according to the Route employed (Rules 251 to 255).

Con. 16 and Art. 24, Art. 25, 1 and 2.

241. *Charge by the word.*—The charge for a telegram is by the word pure and simple, and the minimum charge is for a telegram of three words (Rules 182, 197 and 198). Tables showing the rates per word to Foreign countries are published in the *Post and Telegraph Guide*.

Art. 25, 2.

242. *Tariff Areas.*—For Tariff purposes India is divided into two areas, namely, India proper and Burma. When in the course of transmission a Foreign telegram has to traverse both of these areas, the charge per word is always two annas higher than when it has to traverse only one.

243. *Frontier Offices.*—The Frontier offices, or offices which directly exchange telegrams with Foreign Administrations are as follows:—

I. In the Indian area—

(a) Bombay, Madras and Calcutta exchanging telegrams with the Eastern Telegraph Company.

(b) Karachi exchanging telegrams with the Indo-European Telegraph Department.

*If the sender wishes the signs of punctuation to be signalled. (In this case the counter clerk marks them by an underline).

†If the sender does not want the signs of punctuation to be signalled.

‡Joining together allowed by usage.

(c) Madras and Bombay exchanging telegrams with the Eastern Extension, Australasia and China Telegraph Company.

II. In the Burma Area—

(a) Rangoon, exchanging Telegrams with the Siamese administration,

(b) Bhamo exchanging Telegrams with the Chinese administration.

All Foreign telegrams originating in India or Burma have to pass through one or other of these Frontier offices.

Art 30, 1.

244. *Prepayment of charges.*—Charges for telegrams are collected from the sender with the exception of the additional charges on telegrams to follow (Rule 305), the charge for delivery by special messenger (Rule 318), the charge for Semaphore telegrams received from ships (Rule 328) and extra charges for alterations or illegal combinations of words discovered by the office of destination (Rule 236), in which cases charges are collected from the Addressee.

245. *Cash Stamps or Deposit Account.*—At offices authorised to accept Foreign telegrams the charges must be paid in cash or stamps At Departmental Telegraph offices, telegrams can be accepted on the Deposit Account System

246. *State Telegrams without prepayment.*—State telegrams may be accepted without prepayment at such Departmental Telegraph offices as the Director-General may specify in this behalf, from any British Government official authorised to send foreign State telegrams, whose average expenditure on telegrams is Rs 1,000 or more per month on the condition that settlement of all charges due on such telegrams is made monthly by cash payments into the local treasury and that a fee for the upkeep of accounts is levied on and paid by the sender at the rate of 12 annas for every 25 telegrams or fraction thereof despatched by the sender.

The Rule about prepayment is also relaxed in case of State Telegrams of great emergency from British Government officials, who have been duly authorised (Rule 202) to send Foreign State Telegrams. Whenever a telegram is sent without prepayment under this rule the sender must take the necessary steps to ascertain the charges on it, and pay them into the Telegraph office within twenty-four hours.

Art 30, 2

247. *Receipts.*—The sender of a telegram can claim a receipt showing the amount paid. Senders of telegrams should examine their receipts to see if they are correct, Duplicate copies of receipts for telegrams are never given.

Reg 10, 3.

248. *Rentary of Bearing and other charges from Addressee.*—Except as provided by Rule 305 when a charge is due on delivery, the telegram is only handed to the Addressee upon payment of the amount due

Art. 31, 1.

249. *Undercharges.*—Amounts undercharged in error must be made good by the sender.

Art 31, 2.

250. *Overcharges.*—Amounts overcharged in error and the value of excess stamps affixed to telegrams are refunded to the person entitled to them without application if the amount is Re. 1-4 or more. The repayment of a sum less than Re. 1-4 is not compulsory if the sender has not claimed it.

Route.

Art. 42, 1.

251. The different routes which telegrams may follow are described by concise or abbreviated indications in the Tariff Tables published in the *Post and Telegraph Guide*.

Art. 42, 2

252. If the sender wishes to prescribe the route to be followed he shall write the corresponding indications on the form. The sender may specify the actual route to be followed or mark the telegram *Best route* or *Cheapest route*. Indications as to route are transmitted free (Rule 220).

Art. 42, 3

253. When the sender has prescribed the route to be followed, the Telegraph offices concerned are bound to conform to his instructions, unless the Route indicated be interrupted or is known to be over crowded, in which cases the sender has no right to object to the use of another Route.

Art. 42, 4

254. If, on the other hand, the sender has not prescribed the route to be followed each office from which the routes diverge decides by which route the telegram shall be forwarded.

Art. 42, 5.

255. When a telegram can be forwarded at the same tariff by several routes operated by the same Administration, the latter decides in the best interests of the senders by which route private telegrams shall be forwarded. The senders cannot, in that case, demand specially the use of one of these routes.

Art. 42, 6.

256. When a telegram can be forwarded by wire or wireless, whether or not the routes employed are operated by the same Administration, the sender has the right to request that the telegram be transmitted by "wire" or by "wireless" by writing on his copy a clear instruction to that effect. This instruction is considered by the Telegraph service as a route indication. (Rule 220). It is transmitted in one of the following forms:—"FIL" when the sender requests transmission by wire "Anten" when the sender requests transmission by wireless.

Art. 42, 6.

257. State telegrams (Rule 201) ordered for transmission by "wire" are in no case transmitted by "wireless" unless the sender, duly consulted, has authorized the transmission by "wireless", and similarly State telegrams ordered for transmission by "wireless" are in no case transmitted by "wire" unless the sender duly consulted has authorized transmission by "wire".

Other telegrams ordered for transmission by wire are not transmitted by "wireless" unless the "wire" route is interrupted and there is no prospect of its early restoration. Conversely other telegrams ordered for the transmission by "wireless" are not transmitted by "wire" unless the radio-electric routes interrupted without prospect of early restoration.

Interruption of Telegraphic communication, transmission in duplicate

Art 43, 2.

258. When an interruption to the ordinary means of telegraphic communication occurs during the transmission of a telegram, the office beyond which the interruption occurs or an office situated further back and having at its disposal a circuitous telegraphic route forwards the telegram immediately by that route, or, failing that, by special messenger or by post (*registered* if possible).

Art 43, 2.

259 Telegrams are diverted without any additional charge by a more costly route only if they reach the office, beyond which the interruption exists or which is to divert the telegram by a different route, within a maximum period of 24 hours following the notification of the interruption. Such diversions will not be permissible for repeated interruptions on the same lines more than three times in a month In other cases, the sender will be communicated

with and asked to pay the additional charge, if he wishes his telegram to be diverted to a more costly route

Art. 43, 3.

266. An office which resorts to a method of re-transmission other than the telegraph, addresses the telegram, according to circumstances, either to the nearest telegraph office in a position to re-transmit it, or to the office of destination or to the addressee himself when this retransmission takes place within the country of destination. As soon as communication is restored the telegram is transmitted afresh by telegraph, unless its receipt has already been acknowledged or by reason of exceptional congestion of traffic, the re-transmission would be obviously prejudicial to the service as a whole.

CANCELLATION OF A TELEGRAM AT THE REQUEST OF THE SENDER.

Art. 16, 1.

261. The sender of a telegram or his authorized representative may on establishing his identity, stop its transmission, if there is still time.

Art. 45, 2.

262. *Before transmission.*—When he cancels it before transmission has begun the charges are returned, less a fee of five annas.

Art. 45, 3.

263. *After transmission.*—If the telegram has been transmitted by the Office of origin, the Sender can only request its cancellation by a Paid Service Advice, issued in accordance with Rule 210 and addressed to the office of destination. The Sender must pay the cost of a reply to the cancellation advice either by telegraph or by post at his option. As far as practicable the Service Advice is transmitted in turn to the Offices to which the original telegram was forwarded until it overtakes the latter. In the absence of instructions to the contrary to the Service Advice the Addressee is informed of cancellation of the telegram if it has been delivered to him. The Office which cancels the telegram, or which delivers the cancelling advice to the addressee informs the Office of origin accordingly. The confirmation is given by telegraph if the sender has paid for a telegraphic reply to the cancelling advice; otherwise, it is sent by post as a prepaid letter. If the telegram is cancelled before reaching the office of destination, the charge for the original telegram, the cancelling Service Advice and the paid telegraphic reply, if any, in respect of the distance not traversed, will be refunded to the Sender on application to the *Officer in charge, Telegraph Check Office, Calcutta.*

DELIVERY AT DESTINATION

Art. 47, 1.

264. *According to address.*—Telegrams are delivered according to their Address, either at the residence of the addressee or *Poste restante* or *Telegraphe restant* (Rules 268, 277 and 278)

Art. 47, 2.

265 *Order.*—Telegrams are, in all cases, delivered at, or forwarded to, their destination in the order of their receipt.

Art. 47, 3

266 *Free delivery limits.*—Telegrams addressed to a *place* of residence within the delivery limits of the telegraph office are at once taken to their Address. Telegrams bearing the Special Instruction *Igne* or *Day* [Rule 174 (*f*)] are not, however, delivered during the night. Those which are received during the night need not be delivered forthwith unless they bear the instruction "*Express*" or "*Night*" or when the delivery office is in a position to recognise that they appear to be really urgent. In India, Foreign telegrams are classed as "Express" and are delivered at any hour of receipt, provided the office of destination is open for traffic at the time. They are delivered free of charge within five miles of a Telegraph Office. Beyond that limit, the post is employed without charge, unless a special means of delivery has been paid for by the Sender, or requested by the addressee [Rule 320 (*a*)]. This five miles delivery limit does not apply to Railway Telegraph offices at stations where the traffic is not sufficient to justify the maintenance of a special delivery staff. At such stations telegrams are delivered by hand within station limits only, those for places outside such limits are delivered through the post.

267. *Reply given to messenger.*—In India, the Telegraph messenger who delivers telegram may be entrusted with the Reply provided he be not detained for the purpose more than five minutes. The fact of the reply having been given to the messenger and the amount paid to him should be mentioned on the Receipt signed for the telegram.

Art. 47, 4.

268. *Delivery by post.*—Telegrams which have to be deposited at the post office, *viz.*, *Poste restante*, or=GP=(or *Poste restante recommandee* or=GPR=) are sent immediately to the post office by the telegraph office of destination under the conditions fixed by rules 313 and 314. In India, all Foreign telegrams which have to be posted to destination are posted as registered letters

Art. 47, 5.

269. *Delivery on ships.*—Telegrams addressed to passengers on board a vessel arriving at a port are delivered if possible before disembarkation. When such telegrams cannot be delivered before disembarkation or when the delivery entails expenditure namely boat hire to reach a ship which is not alongside a wharf, pier or jetty they are delivered to the ship agents

Art. 16, 1.
Art. 48, 2.

270. *Persons to whom telegrams may be delivered.*—A telegram taken to the Addressee's place of residence may be delivered either to the Addressee, to an adult member of his family, to any person in his service, to his lodgers or guests, or to the porter at the hotel or the house unless the Addressee has named in writing a special representative or the Sender has requested delivery to the addressee in person by writing in the space provided on the form the Special Instruction "H"—[Rule 174 (*d*)]. In this case the Office of destination writes the instruction "*Addressee only*" in full on the envelope, and gives the necessary instructions to the messenger.

Art. 48, 1.

271. *Open delivery.*—The Sender may also request delivery of the telegram in an open cover by writing in the space provided on the form the Special Instruction "*Guard*" or "*Open*" [Rule 174 (*d*)]. This request is reproduced on the copy handed to the Addressee, which is delivered in India, without an envelope, simply folded with the address written on the back.

Art. 48, 3.

272. *Undelivered telegrams.*—When a telegram cannot be delivered the Office of destination sends with the minimum delay, a Service Advice to the Office of origin, stating the cause of non delivery and repeating the address exactly as received. According to circumstances the Advice is completed by stating the reason for refusal (Rule 236) or by indicating the charges to be claimed from the Sender (Rules 303, 306 and 317). No Advice is sent under this rule where a telegram duly posted under Rule 321 is returned by the Post Office as undelivered or on telegrams addressed *To whom arrived, Telegraphe restant* or *poste restante* except when a charge has to be collected, when the Service Advice of non-delivery is sent by ordinary prepaid letter at the expiration of the period for returning such correspondence.

273. The office of origin checks the address and if it has been altered, rectifies it immediately by a Service Advice. According to circumstances this Service Advice contains instructions necessary to correct any errors committed such as "forward to destination" "cancel telegram", etc.

Art. 48, 4

274. If the address has not been altered the office of origin, whenever possible, communicates the advice of non-delivery to the sender. An advice of non-delivery is only retransmitted by telegraph if the sender of the original telegram has requested that his telegram be retransmitted by telegraph (Rule 306). If the latter amount is less than the former by not less than one rupee four annas, the difference is not refunded to the Sender except on application by him.

(E) TELEGRAMS TO FOLLOW AT ORDER OF THE SENDER.

Art. 56, 1.

Art. 56, 3.

302. When a telegram bears the Special Instruction —FS—, without further instructions the Office of destination inserts the new Address, if any, supplied at the residence of the Addressee and sends on the telegram to the fresh destination. Art 56, 4

303. If the delivery cannot be effected, and if no further Address is furnished, the telegram is retained in the office and its non-delivery reported as in Rule 272. The Service Advice of Non delivery must show the amount of the charges to be recovered from the Sender. This Advice is addressed to the office which last redirected the telegram in order that it may effect any necessary corrections. If the transmission was correct this office forwards the service advice to the office of origin which collects the re-direction charges from the sender of the telegram and communicates to him the advice of non delivery.

Art. 56, 5

304. If the Special Instruction —FS— is accompanied by successive addresses, the telegram is transmitted to each of the destinations given up to the last, if

Art. 56, 7 305. The charge to be collected at the outset on a telegram *Faire suivre* or "To follow" is simply the charge up to the first destination, all the Addresses being counted in the number of words charged for. Any supplementary charge is collected from the Addressee and reckoned on the basis of the number of words transmitted at each redirection. When the Addressee refuses to pay the redirection charges, the telegram is nevertheless delivered to him. The office of origin is informed by service advice of the refusal to pay and of the amount of charge to be collected from the sender.

(F) TELEGRAMS TO BE RE-TRANSMITTED BY ORDER OF THE ADDRESSEE OR HIS AGENT

Art. 57 306. *Redirection.*—Should the Addressee of a Foreign telegram received in India have left the place to which it is addressed it may be redirected to a second address either by an official of the Telegraph Office or by an agent of the Addressee. The person giving notice must state whether he wishes the telegram to be redirected under ordinary or urgent* class and is responsible for any charges that may be incurred. No additional charge will be levied for redirection if the new address is within the same town, but if in a different town, the full rate according to the destination and class of the telegram, as prescribed in Section XXIV of the Post and Telegraph Guide will be charged for the redirection. The special instructions "Redirected from..... ....." (name of office or offices redirecting) will have to be added and paid for. In cases of messages redirected to places beyond India prepayment of charges is compulsory. In all other cases if the sum due has not been paid at the office where the telegram has been redirected the amount will be recovered from the Addressee before delivery. State telegrams will be redirected free within Indian limits only. Instructions left at the Telegraph Office regarding the redirection or re-addressing of telegrams will be considered to be in force for a month only, after that period they will be liable to the fees prescribed by Rule 280. When a telegram not bearing the special instruction =FS= has to be re-directed to a second address without an instruction to redirect it by telegraph, the telegram will be posted to its destination as prescribed by Rule 321 and a remark to the effect added to the notice of non-delivery as prescribed by Rule 272.

The name of the office of destination appears only once, namely at the end of the Address. In telegrams addressed to several addresses, the instructions regarding the place of delivery such as Exchange, Railway Station, Market, etc., must appear after the name of each addressee. Similarly in telegrams for the same person at several addresses, the name of the addressee must appear before each designation of a place of delivery.

Art. 58, 2 308. If the address of a Multiple telegram contains any Supplementary Instructions, it is written in accordance with Rule 178.

Art. 58, 3. 309. A multiple telegram is charged as a single telegram, all the addresses being reckoned in the number of words. For Multiple telegrams, in addition to the word rate a fee of five annas is charged for the preparation of each copy containing not more than 50 chargeable words. The number of copies is one less than the number of addresses. For copies containing more than 50 chargeable words the fee is five annas for fifty words or part of fifty words. The charge for each copy is calculated separately, on the basis of the number of words which it is to contain. For urgent multiple telegrams the fee of five annas a copy per fifty words is increased to ten annas.

Art. 58, 4. 310. Each copy of a multiple telegram must bear only the address proper to it, and the instruction =TMx= must not appear on it, unless the Sender has requested the contrary. Art. 59, 2. 312. The Sender may also require that his telegram may be transmitted by telegraph as far as an office named by him and there to destination by post or air mail if there is such a service between the country of the terminal Telegraph Office and the country of destination. The name of the telegraph office from which the telegram is to be forwarded by post (ordinary or aerial) must be placed immediately after the name of the place of final destination, *e.g.*, the address "Poste" (or P&V) Brown, 34 High Street, Belize, New Orleans, would indicate that the telegram was to be reforwarded by post from New Orleans to Belize.

Art. 59 3. 313. The Address of telegrams which are to go beyond the Telegraph lines must be prefixed with the special instruction relative to the means of transport to be used, Express Post or Air Post.

(*a*) when a request to this effect has been expressly made by the Sender (Rule 311) or by the Addressee (Rule 105). (*b*) when the Office of destination has not a more rapid means at its disposal.

Art. 61, 4.

321. Telegrams which have to be forwarded to their destination by post, and which are posted by the Telegraph Office of destination in India are dealt with in the following manner :—

(*a*) Telegrams to be delivered within the limits of the Indian Inland Postal Tariff. These are posted registered without charge to the Sender or Addressee.

(*b*) Telegrams to be transmitted by post to a place beyond the limits of the Indian Inland Postal Tariff. If the postal charges have been duly collected in advance, the telegrams are posted as fully paid letters, ordinary or registered, as the case may be, the prepayment including, in the case of telegrams bearing the indication = PAV =, the surcharge proper to the air route. When the postal charges have not been prepaid, the telegrams are posted as ordinary unpaid letters, the postage being payable by the addressee.

DEFERRED FOREIGN TELEGRAMS.

Art. 70, 1.

359. The Sender of a private telegram may obtain the benefit of a reduction of 50 per cent in the charge on condition that the telegram is only transmitted after telegrams charged for at full rates or at Press rates. Such telegrams are termed "*Deferred Foreign telegrams*".

Art. 70, 2.

360. *Language.*—The text of deferred telegrams must be expressed wholly in plain language in one and the same language chosen from amongst the following of the languages admitted as plain language :—

(*a*) French (*b*) the language or languages of the country of origin or of the country of destination, designated by the administrations concerned, (*c*) one or two languages which may be designated by the administration of the country of origin or by the administration of the country of destination in addition to the languages indicated in (*b*).

Any telegram containing numbers, names or words without connected meaning and in general any telegram which does not in the opinion of the telegraph service bear upon the face of it an intelligible meaning is not admitted to the benefit of the reduced rate. Registered addresses are accepted when they are accompanied by a text which makes their character clear.

NOTE.—The languages of the country of origin in the case of India are English, French or Portuguese.

Art. 70, 3.

361. If numbers written in letters or in figures, commercial marks or abbreviated expressions are employed, the number of such words and groups must not exceed one third of the number of chargeable words in the text. As an exception in deferred telegrams originating in or addressed to China the text may be expressed wholly by means of groups of four figures taken from the official telegraph dictionary of the Chinese administration which shows opposite each group of figures the corresponding meaning in French.

Art. 70, 4

362 All special instructions [Rule 174 (*d*)] are admitted in deferred telegrams except that relating to urgency. The charges applicable to the various special services desired by the sender in connection with a deferred telegram (Paid service advice, conditions of delivery, RP, TC, etc.), are the same as for ordinary telegrams. Telegrams to follow, however, may be re-transmitted at reduced rates on deferred telegrams if such telegrams are admitted between the Administration which has to retransmit it and that of the new destination. The corresponding supplementary instructions are charged for at half rates.

Maritime telegrams * are not admitted at the deferred rate.

Art. 70, 5.

363 *Declaration by sender.*—The sender of a Deferred Foreign telegram must sign on the telegram form a declaration categorically stating that the text is expressed wholly in plain language and bears no meaning other than that which appears on the face of it. The declaration must indicate the language in which the telegram is written.

Art. 70, 6

364. According as the language used is French or one of the languages designated by the Administration of destination or one of the languages designated by the Administration of origin, the sender must write before the address one of the special instructions LCF, LCD, or LCO [Rule 174 (*c*).]

365. *Places between which Deferred Telegrams are admitted.*—The countries to which Deferred Foreign telegrams may be sent at half rates are indicated in the tariff tables published in the *Post and Telegraph Guide*.

Art. 70, 7

366. *Order of transmission.*—Deferred Foreign telegrams † are only transmitted after Private telegrams at full rates and Press telegrams.

Art. 70, 8

367. *Delivery.*—Deferred Foreign telegrams at half rates are delivered concurrently with telegrams at full rates.

Art. 70, 9.

368. *Application of full rates to irregular telegrams.*—The Telegraph Administrations reserve the right to refuse to accept at half rates any telegram which, in their opinion, is not in accordance with the foregoing conditions.

When the office of destination observes that a telegram bearing one of the supplementary instructions LCF or LCD does not comply with these conditions it may collect from the addressee a supplementary charge equal to the difference between the cost of the telegram at full rate and at deferred rate.

Art. 70, 10

369. *Refunds.*—The minimum delay which gives a right to reimbursement of the charge for a deferred telegram is fixed at 96 hours [*vide* Rule 358 (*a*)].

RECORDS.

Art. 71

370. *Period of preservation.*—The originals of telegrams and documents relating to them are kept for seven days only in Government Telegraph Offices, after which time they are sent to the *Officer in Charge, Telegraph Check Office, Calcutta*, where they are preserved for at least ten months from the month following that in which the telegram was handed in and are then destroyed.

Art. 72, 1.

371. *Secrecy.*—Originals or copies of telegrams may be shown only to the Sender, or to the Addressee, after verification of their identity, or to the authorised representative of one of them. A charge of annas eight is made for such inspection.

Art. 72, 2.

372 *Copies.*—During the minimum period fixed for preservation of records (Rule 356) the sender and the addressee of a telegram or their authorised representatives have a right to obtain certified copies of photographs

* Maritime telegrams are telegrams exchanged with ships at sea through the intermediary of Semaphore or radiotelegraph stations established on land or on board ships permanently moored (coast stations).

† Deferred Foreign telegrams can be accepted as usual during the working hours of offices on Sundays and holidays.

(a) of the telegram,

(b) of the copy delivered, if this copy or a duplicate of it has been preserved by the Administration of destination.

353. A fixed charge of five annas is made for every copy furnished in conformity with Rule 352, if the telegram does not exceed 50 words. Over 50 words, this charge is increased by five annas for each 50 words or part thereof. The charge for photographs of originals or copies is Rupees fifteen for each page of the size of a foreign telegram form.

Art. 73, 3.

354. Telegraph Administrations are not bound to show or furnish copies of photographs of the telegrams mentioned above unless the Senders, the Addressees or their authorized representatives furnish the particulars necessary for tracing the telegrams, to which their requests relate.

Art 73, 4.

355. *Extended preservation.*—On the ground of pending or contemplated judicial proceedings, application may be made by an interested party to the *Officer in charge, Telegraph Check Office, Calcutta*, for the preservation of specified telegrams exchanged between other persons. Such application must be made within ten months of dates of the telegrams, and such telegrams will then be preserved for a further period of four months; at the expiration of this further period they will, in default of a renewed application, be destroyed. It must be understood that the duty of the Telegraph Department in the matter is confined to making the search and preserving the telegrams, if found. No information as to the result of the search will be furnished, and any telegrams answering the description given, which may be found, will only be produced on the order of a competent Court of Law or other competent authority.

356. *Fee for searching for telegrams.*—Should the particulars furnished be insufficient to enable the Check Office or the Telegraph Office as the case may be at once to trace the telegrams applied for under either Rule 352 or 355, the cost of searching for them must be deposited by the applicant before the search is undertaken. A fee of two rupees will be charged for searching through either the sent or received telegrams of any telegraph office for one day; if both the sent and received telegrams of an office are to be searched, a fee of Rs. 3 for each day's search will be charged; thus if an examination is required of either the sent or received telegrams of two Telegraph Offices over a period of five days, the searching fee will be twenty rupees and if both the sent and received telegrams are required to be examined the fee will be thirty rupees.

357. Applications for seeing the originals or for copies of telegrams may be addressed to the Telegraph Office within seven days of the date of handing in or receipt of such telegrams or to the *Officer in charge, Telegraph Check Office, Calcutta*, within ten months (Rule 356). Requests for photographs should be addressed to the *Officer in charge, Telegraph Check Office, Calcutta*.

REFUNDS.

358. *Refunds* of the following charges are made to those who have paid them on receipt of an application for such refund, or of a complaint against the service:—

Art 74, 1

(a) The full charge paid for every telegram which, through the fault of the Telegraph service, has failed to reach its destination.

(b) The full charge paid for every telegram stopped in the course of transmission as a result of the interruption of a route and in consequence cancelled at the request of the Sender.

(c) The full charge paid for any telegram which through the fault of the telegraph service was received later than it would have been received by post or in any case when it has not been delivered to the addressee until after a period of (1) 24 hours in case of full rate telegrams exchanged between two adjoining countries or countries connected by a direct means of communication, (2) 96 hours in cases of deferred telegrams (Rule 339, etc.), (3) 48 hours in all other cases. The time for which offices are closed when that is the cause of delay, the time occupied in delivery by express or special messenger, the time employed for transmission by Semaphore as well as the period of retention of such telegrams at a Semaphore station, at a coast station or on board a ship is not reckoned in the periods indicated above. The periods mentioned above, except in case of deferred messages, are reduced by a half for State telegrams in respect of which the Sender has not renounced the priority of transmission (Rule 267), for urgent telegrams (Rule 283) and for Paid Service Advices (Rule 210).

(d) The charge for that part of the text of a collated telegram in Secret language or of a telegram in plain language which, as a result of errors in transmission, has manifestly been unable to fulfil its purpose, unless the errors have been rectified by Paid Service Advices under Rule 210.

(e) The accessory charge for a special service which has not been performed including the charge for the relative special instruction.

(f) The amounts deposited for Paid Service Advices, requesting repetition of a passage believed to be incorrect if the repetition is not in conformity with the first transmission, subject to the reservations that in the case where some words were correctly and others incorrectly reproduced in the original telegram, the charge for the words correctly transmitted in the first place is not refunded. Nevertheless, the charge for the words correctly transmitted must be refunded, whatever language may be employed in the telegram, if the Administration concerned is satisfied that the alterations made prevented the words which had not been distorted from being understood.

(g) The full charge paid for any other Paid Service Advice, telegraphic or postal, sent under Rules 210 to 218 necessitated by an error of the Telegraph Service.

(h) The full amount of any sum prepaid for reply when the Addressee has not been able to make use of the Reply telegram form or has refused it, and the Reply telegram form is in the hands of the Telegraph Administration by which it was issued or is restored to that service before the expiration of a period of six months from the date of issue.

(i) The charge proper to the telegraph section not traversed when, owing to interruption of a telegraph route, the telegram has been forwarded to its destination by post or by other means. The amount expended to replace the original telegraphic route by another means of transport is, however, deducted from the sum to be refunded.

(j) The full charge for any telegram with a prepaid reply which has obviously not been able to fulfil its purpose owing to a service irregularity that justifies the repayment of the charges paid for the reply; also the full charge for any prepaid reply which has obviously not been able to fulfil its purpose owing to a service irregularity which justifies the repayment of the charge for the telegram of enquiry.

(k) The charge, when it amounts to one rupee four annas or more, of every word omitted during the transmission of a telegram, unless the error has been corrected by means of a Paid Service Advice under Rule 210.

(l) The difference between the amount of a Reply telegram form and the amount of the charge

for the telegram prepaid by means of such reply telegram form, if this difference is equal to one rupee four annas at least (Rule 189).

(m) The charge paid for every telegram stopped under Rules 135 and 136.

(n) The portion of the charge due for every telegram cancelled by the Sender (Rules 261 and 263).

Art. 74, 2.

359. When a coastal station advises the office of origin that a radiotelegram cannot be transmitted to the ship of destination, the Administration of the country of origin initiates at once refund to the Sender of the coast and ship charges relative to the radiotelegram; when the notification of delivery of a radiotelegram has not reached the station which transmitted it the charge is only refunded when it is found that the radiotelegram gives rise to refund.

Art. 74, 3.

360. In the case of a partial refund in respect of a Multiple telegram, the quotient obtained by dividing the total charges collected by the number of addresses determines the charge proper to each copy.

Art. 74, 4.

361. In the cases provided for in clauses (a), (b), (c), (d), (i) and (k) of Rule 358 the refund applies only to the actual telegrams which have not been received, or which have been cancelled, delayed or altered including the unused accessory charges, but not to messages which may have been caused or rendered useless by the non-delivery, delay or alteration.

Art. 74, 6.

362. When the errors due to the telegraph service have been corrected by Paid Service Advices under Rules 210 and 213, within the periods specified in Rule 358 (e) ensuing from the time of handing in the original telegram, refund only covers the charges of the Paid Service Advices. No refund is due in respect of the telegrams to which the Service Advices refer.

Art. 74, 6

363. No refund is accorded for rectifying telegrams which instead of being exchanged between Telegraph Offices in the form of Paid Service Advices have been exchanged directly between the Sender and Addressee.

Art. 74, 7.

364. Rules 358 to 363 are not applicable to telegrams passing over the lines of a non-adhering Administration which itself refuses to submit to the obligation of Refunds. At the same time, the adhering Administrations that have participated in transmission abandon their portion of the charge when the right to a refund is established.

Art. 75, 1

365. Every claim for refund must be formulated, under penalty of rejection, within six months from the date of handing in the telegram.

Art. 75, 2.

366. (i) Every claim for refund, and every complaint respecting telegrams, should be made by the Sender to the Telegraph Administration under which the telegrams originated. Provided—

(i) that such application or complaint may also be presented by the Addressee to the Administration of destination, which will then decide whether it will deal with it, or whether it should be forwarded to the Administration of origin;

(ii) that in India complaints respecting telegrams and claims for refunds involving complaints against the service must be addressed to the *Director General of Posts and Telegraphs, Treffle Branch, Calcutta*, or to the appropriate Postmaster-General as defined in section 2 of the Indian Post Office Act, * 1898 (VI of 1898). Claims for refund respecting telegrams which do not involve complaints against the service must be addressed to the *Officer in charge, Telegraph Check Office, Calcutta.*

(iii) that claims for refunds on account of (1) Paid Service Advices [Rule 358 (f) and (g)] (2) overcharges or of telegrams stamped in excess by the Sender (Rule 250) and (3) telegrams stamped and cancelled before transmission had begun (Rule 262) may, if made within seven days from the date of the telegram, be presented at the Telegraph Departmental Offices and Combined Post and Telegraph Offices at which such advice or telegrams were handed in.

(2) Every such claim and complaint shall be accompanied by documentary evidence, namely:—

(a) in case of non-delivery or of delay, by a written statement from the office of destination or from the Addressee;

(b) in case of alteration or omission, by the copy of the telegram delivered to the Addressee;

(c) in case of an unused Reply telegram form (Rule 200), by the Reply telegram form delivered to the Addressee;

(d) in case of telegrams sent from India, by the Receipt (Rule 247);

(e) in case of Paid Service Advice (Rule 214), by the correction memorandum granted in connection therewith by the Telegraph Office of delivery.

Art 75, 4 & 5

367. When a claim is admitted by the Administrations concerned the refund is made to the applicant by the Administration of origin. The right to the refund lapses after a period of six months from the date of the letter by which the Sender is informed that the refund has been granted.

Art. 76, 5

368. If the Sender does not reside in the country where he handed in his telegram he can have his claim forwarded to the Administration of origin through the medium of another Administration. In this case the latter is deputed to make the refund, if need be.

369 No claim is admitted when a telegram not being in accordance with the conditions prescribed for observance by the public with regard to composition, language, legible writing, address instructions for the conveyance of telegrams beyond the telegraph lines, etc., has been accepted for transmission at the Sender's risk.

[*Reduction of the rate of interest on deposits in the General Provident Fund and certain other similar funds.*]

No. F.-70-II-F.E.—In view of the recent fall in the rate of interest on their rupee borrowing the Government of India have had under consideration the question whether the rate of interest, which is now paid on deposits in the General Provident Fund and other similar funds and which is intended to correspond to the rate of interest on their rupee loans, should not also be reduced. They have now decided, with the approval of His Majesty's Secretary of State for India, that the rate of interest on deposits and also on the balances at credit of subscribers on the 31st March 1927 should be reduced from 5½ to 4¾ per cent with effect from the 1st April 1927. 2. It is intended that the reduced rate of interest (4¾ per cent) should also apply, with effect from the same date, to compulsory subscriptions and contributions and to the balances at credit of the subscribers on the 31st March 1927 in respect of the

State Railway Provident Fund and the Provident Funds of the Assam-Bengal, Bombay-Baroda and Central India, Burma, Bengal-Nagpur, Madras and Southern Mahratta and South India Railways whose provident fund securities have been taken over by Government

regarding the Indian Church Measure. When this correspondence took place, the negotiations regarding the Measure were in a preliminary stage. It is true that the conception of the scheme dates back for many years. But it was not until 1922 that the Metropolitan was in a position formally to approach the Government of India. His proposals were embodied in a rough draft of the Measure, but the Government of India did not subject that draft to any detailed examination. They contented themselves with expressing their general sympathy with the object in view, and they informed the Metropolitan that before they could recommend the proposals for the support of the Secretary of State for India, they must be satisfied that the Measure commended itself to the Anglican community of India as a whole. And their object in consulting Local Governments was merely to obtain a preliminary and tentative expression of opinion on the principle of the proposals and the object with which they had been formulated. As the result of this action on the part of the Government of India, the Diocesan Councils were consulted during the course of the year 1923, and with two exceptions they pronounced themselves in favour of the draft Measure. The majority of Local Governments also took a favourable view, though some criticism was directed against certain of the provisions, and the only two Local Governments which found themselves unable to approve of the proposals, expressed their sympathy with the object in view. In these circumstances, the Government of India felt justified in subjecting the proposals to detailed examination, and the last two years have been occupied in negotiations regarding the draft Measure both in India and in England. As the result of these negotiations, certain provisional conclusions have been reached by the Secretary of State for India in Council and the Government of India on the one hand and the Bishops of Calcutta and Bombay as representing the Provincial Council of the Church on the other, and the Government of India now desire to have the views of the Government of . . . . . on these conclusions. They are embodied in the documents forwarded with this letter as Appendices I, II and III. Appendix I is a statement of the principles which it is proposed to embody in a Bill to be presented to Parliament, Appendix II is a statement of the principles which it is proposed to embody in a Measure to be introduced into the National Assembly of the Church of England, and Appendix III is a draft of the Rules which it is proposed to frame under the rule-making Clause of the Bill, in the event of that Bill being accepted by Parliament. Certain details of the proposals contained in Appendix I and certain of the draft Rules are still under discussion. But the points at issue are not of major importance, and it is thought that the documents forwarded with this letter indicate sufficiently clearly the lines on which it is proposed to proceed and that they afford a suitable basis of discussion.

2. I am first to explain briefly what the general object of the proposed legislation is. It is to dissolve the legal union between the Church of England in India and the Church of England. The present position is that the Church of England in India is, in the eyes of the law, merely a part of the Church of England. It is bound by the ecclesiastical law of England, it can make no laws for itself, and it has no powers of self-government. Under Section 115 of the Government of India Act, the Metropolitan is 'subject to the general superintendence and revision of the Archbishop of Canterbury,' and the Bishops of the more important Sees in India are

appointed by the Crown on the advice of the Secretary of State for India. These arrangements for the government of the Church of England in India date back to the Acts of 1813 and 1833. Then the Church consisted almost entirely of British people temporarily resident in India and was in actual fact the Church of England in India. Now the position has changed. British people temporarily resident in India form only a comparatively small proportion of the Church in India, and the existing régime is out of harmony with modern conditions, moreover it is full of legal anomalies and difficulties. Thus, while under the Government of India Act the Metropolitan is subject to the general superintendence and revision of the Archbishop of Canterbury no machinery exists by which these powers of superintendence can be exercised, and they have not been exercised within living memory. It is claimed, therefore, that the Church in India should now be given the right to make its own laws, and that it is time that it should become an Autonomous Church, no longer merely a part of the Church of England, but independent of, though in communion with, that Church. There is, moreover, a deeper and more fundamental reason for separation. The claim is made that it is entirely in harmony with the genius of the Church of England that the daughter Church of India should develop into an autonomous Regional Church. For the Church of England has consistently maintained the principle that 'Local National Churches should exist within the Catholic Church and should have power so to settle their own affairs as to give that expression to catholic truth which is natural to their country and people.' The Government of India recognize that these are legitimate aspirations, and they are confident that Local Governments will take the same view.

3. But the problem how to give effect to this object has proved to be one of great difficulty. The Government of India incur considerable expenditure in respect of the Church of England in India. They maintain an establishment of Chaplains, they make grants in aid of other Clergy, and they keep up places of worship. It is common ground that for a long time the Indian Church will not be able to dispense with assistance of this kind. Its resources will not enable it to do so. Nor again has it ever been the intention of the Government of India that the institution of an autonomous Indian Church should imply the discontinuance of this assistance. Ever since British rule began in India, Chaplains and Churches have been maintained for the benefit primarily of British-born servants of the Crown who are members of the Church of England. It is true that in recent years the Government of India have felt it necessary to reduce the number of Chaplains and to restrict, as far as may be, their ecclesiastical expenditure. But this policy has no connection whatever with the Indian Church Measure, and it may be taken that as a matter of policy and long practice the Government of India will continue to appoint Chaplains belonging to the Church of England to minister primarily to British-born servants of the Crown in India and that they will continue to maintain a sufficient number of Churches. One of the main difficulties in the case, therefore, has been the problem how to graft on to legislation primarily intended to place the Church in India in an independent position provisions which will secure the continuance of the system whereby Chaplains belonging to the Church of England and paid by the Government of India will be sent out to minister in the Indian Church. The documents appended to this letter show how it is proposed to solve this problem. It will be seen that at the same time an attempt has been made also to solve another difficult problem, namely, how the interests of members of the Church of England resident in India in general and of the British army in India and British-born servants of the Crown who are members of that Church in particular can best be safeguarded. This is a consideration which throughout the negotiations has been prominently in the mind of the Government of India. For clearly a special responsibility lies on them in respect of British troops and British-born servants of the Crown in India. It is primarily for their benefit that Chaplains and Churches are, and will continue to be, maintained. It is not impossible, however unlikely it may be, that the Indian Church may develop on lines that will prove uncongenial to them, and the Government of India have regarded it as their duty as well as their right to insist that this contingency, remote though it may be, should be provided for before they could agree to the institution of the legislation necessary for the constitution of an autonomous Indian Church. They desire to add that the difficulties to which allusion has just been made have also been recognized by the Metropolitan, and their acknowledgments are due to him, to the Bishop of Bombay and to the other Bishops for their cordial co-operation in the search for a satisfactory solution.

4. I am now to give a concise exposition of the legislation which is contemplated It is proposed to proceed partly by means of an Indian Church Measure to be passed under the procedure provided by the Church of England Assembly (Powers) Act, 1919, and partly by means of a Bill which will be submitted to Parliament in the ordinary way. The measure and the Bill will be complementary one to the other. The Measure will confine itself to the main ecclesiastical object in view, namely, the severance of the legal connection between the Church of England and the Church of England in India, and the conferment on the latter, under the name of the Indian Church, of the power to govern itself. The Bill will repeal sections 116, 117, 118, 119, 120 and 121 of the Government of India Act, and will deal with the relations between the Indian Church and the Government of India and with the property of the Church. It is not thought necessary to explain at length why it is proposed to legislate partly by means of a Measure and partly by means of a Bill. This is primarily a question of procedure, and it is perhaps sufficient to say that the Secretary of State in Council has decided in consultation with his legal advisers that the appropriate method is to proceed in the above way. Care of course will be taken to ensure that both enactments come simultaneously into practical effect, and with this object in view it is proposed that the date of severance, that is the date on which the legal connection between the Church of England and the Church of England in India will be dissolved, should be a day to be fixed by the Governor-General in Council not less than two years and not more than three years after the coming into operation of the Measure and the Bill. Under the draft Measure, as from the date of severance, the Metropolitan will cease to be subject to the general superintendence and revision of the Archbishop of Canterbury; it will no longer be necessary to obtain a Royal Mandate for the consecration of a Bishop for a charge in India, and the Indian Church will have power to frame rules, in such manner as may seem appropriate for its own good government and for the general management of its property and affairs. The Bill is more complicated For the purposes of this letter, the most important provisions are those numbered 4 and 5 in Appendix I read with the definitions of 'Maintained Church' and 'Chaplains', but it is necessary first to deal briefly with certain legal consequences which will follow, as from the date of severance, from the passing of the Bill into law As has already been mentioned, one of these legal consequences is that certain sections of the Government of India Act will be repealed, and the arrangements which it is proposed to make in respect of Church property are also important Much of the property of the Church is now held by the Bishops and Archdeacons as corporations sole These corporations sole will be dissolved, and it is proposed that with certain stated exceptions the property of the Church should be held either by Indian Church Trustees or by Diocesan Trust Associations registered either under the Societies Registration Act, 1860, or under the Indian Companies Act, 1913. The latter Act has recently been amended so as to enable Associations formed for religious purposes to be registered under section 26. It is also possible that as the result of the Bill passing into law, some existing trusts may fail, and accordingly provision will be made in the Bill to enable new trust schemes to be settled. Some of the results of the repeal of sections 115 and 117 to 121 of the Government of India Act have already been mentioned, and it is necessary only to add that as soon as these sections are repealed, the Government of India will no longer be required by statute to pay the salaries of Bishops and Archdeacons of the Indian Church other than those in office on the date of severance. At the same time, the Bishops of the Indian Church will exercise episcopal supervision over Chaplains appointed by the Secretary of State, and the Archdeacons will also do much work for Government in respect of Maintained Churches and cemeteries, and there will be nothing to prevent the Government of India from making payment for such services. The Metropolitan indeed has already suggested that lump annual payments should be made to the Indian Church on this account, and the question is under separate consideration. For the rest, the Bill will expressly authorize the continuance of the existing practice whereby the Government of India maintains an establishment of Chaplains, makes grants in aid of other Clergy, and keeps up places of public worship. It is not proposed to repeal sections 122 and 123 of the Government of India Act and the Bill, therefore, will not affect such expenditure as is now incurred in respect of the Church of Scotland and other Christian Churches A passing reference may be made to the proposal numbered 3 in Appendix I. Doubts of a very technical character have been expressed whether sentences of consecration hitherto

pronounced in respect of the Churches of the Church of England in India are valid, and it is proposed that the opportunity afforded by this Bill should be taken once and for all to remove these doubts.

5. I am now to revert to the important question of safeguards. The Government of India have already referred in general terms to the fears which have been expressed in certain quarters that the Indian Church, if placed in a position of independence of the Church of England, may develop on lines uncongenial to members of the Church of England resident in India. In so far as Articles of Faith are concerned, effective safeguards will be embodied in the Constitution of the Indian Church. A preliminary draft of this Constitution * has already been drawn up, and I am to forward a copy of it, as revised up to December 1924, for the information of the Government of . . . Part I contains a series of Preliminary Declarations concerning the principles accepted by the Indian Church as governing its constitution. The first of these Declarations formally accepts, on behalf of the Indian Church, the faith of the one Holy Catholic and Apostolic Church of which the Church of England is also a part, and the terms of this Declaration can be altered only in accordance with the procedure prescribed by Part (*a*) of Preliminary Declaration 19. It will be seen that a change can be made only with such deliberation and such general consent that the danger of any divergence from the faith of the Church of England is so remote as to be almost negligible. Nevertheless, *ex majore cautelâ* provision has been made for the contingency in the draft Bill, and the Bill sets out the consequences that will ensue if at any future time the Archbishop of Canterbury should certify that the Indian Church has ceased to be in communion with the Church of England In that event, the Government of India will be at liberty to resume all Maintained Churches whether consecrated or not, and the Church of England will be at liberty to re-enter India and resume possession of those Churches.

6. It is obvious, however, that this procedure can be adopted only in the event of what has been described as an ecclesiastical cataclysm, and the Government of India are aware that the apprehensions which are felt centre chiefly round what may be termed matters of practice. In particular, fears have been expressed lest members of the Church of England temporarily resident in India may be deprived of the use in churches of the English Book of Common Prayer. Here again safeguards have been provided partly in the Bill and partly in the Constitution of the Church. It has already been explained, that one of the difficulties of the case has been how best to incorporate in legislation primarily intended to place the Indian Church in an independent position, provisions which will secure the continuance of the system whereby the Secretary of State sends out Chaplains to minister in India, and places of public worship are maintained at the public expense. This difficulty has been met by authorising the Secretary of State and the Government of India in the Bill to maintain Churches and to keep up an establishment of Chaplains Churches so maintained will be called 'Maintained Churches', and a list of such Churches will be shown in a schedule to the Bill A clause in the Bill will also empower the Governor General in Council, with the previous sanction of the Secretary of State and with the concurrence of the Bishop of Calcutta, to frame rules relating to these Churches and Chaplains, and it is proposed that such statutory safeguards as are thought to be necessary should be included in these rules. A preliminary draft of the rules has already been drawn up in consultation with the Bishops of Calcutta and Bombay and is reproduced in Appendix III to this letter. Special attention is invited to Rules 5, 10, 11, 12 and 15 Under Rule 5 every 'Chaplain' (as defined in the Bill) will have the right to use the Book of Common Prayer whether he is ministering in a Maintained Church or elsewhere to a congregation which includes members of the Church of England temporarily resident in India. Rules 10—12 deal with the liability of Government to keep Maintained Churches in repair. They do not impose on the Government any liability beyond what it accepts at present, and Rule 11 provides a means whereby Churches which it is not desired to keep in repair at the cost of the State may be removed from the list of Maintained Churches. Under Rule 15, the Churches from time to time entered in the list of Maintained Churches shall be available for the services of the Church of England as contained in any Book of Common Prayer from time to time authorised in England. Thus the principal safeguards provided by the Bill will be that wherever there are Chaplains appointed by the Secretary of State or wherever there are Maintained

* Not published.

Churches, the continuance of the services of the Church of England is secured by Statutory Rules. The list of Maintained Churches will include the great majority of Churches where members of the Church of England temporarily resident in India worship in any considerable numbers, and it is thought that the Rules should remove all reasonable apprehensions.

7. Before proceeding further, the Government of India desire to explain the form of the proposed rule-making clause. It is of course unusual that the law should require that the rules framed by the Governor-General in Council with the sanction of the Secretary of State must obtain the concurrence of a third party. Originally it was intended that the subject-matter of the Rules should be embodied in a statement of intentions which would have only moral, not legal, force, but it was eventually decided that the agreement which had already been arrived at with the Church should be embodied in Statutory Rules. On the other hand, the Bishops, while they were willing and indeed anxious to give all reasonable protection, to British congregations, contended that the freedom to be given to the Indian Church should not be impaired by legislative restrictions imposed on it from outside. The form of the proposed clause, therefore, was decided on, after careful consideration as the best way of reconciling these two conflicting considerations. The Bill itself is of so unusual a character that the precedent is not likely to prove inconvenient, nor is the clause likely to prove inconvenient in practice. As has already been explained, a provisional agreement has already been reached as to the first draft of the rules to be issued under the clause, and the intention is that before the Bill is passed, the Rules will have been settled as a completed scheme. It is not expected that they will subsequently undergo any frequent or material changes.

8. Rule 25 deals with episcopal supervision. The Indian Church will provide episcopal supervision for Chaplains and episcopal ministrations for congregations worshipping in Maintained Churches. In this connection, however, Rule 26, which has been inserted with special reference to British troops in India, is important. Experience may show hereafter that other arrangements for the episcopal supervision of Chaplains ministering to the troops are desirable. For instance, it may be thought advisable that a Chaplain General with episcopal powers should be appointed or that a Bishop should be sent out from England as a Bishop of the Indian Church to exercise episcopal supervision over Chaplains ministering to the troops. Rule 26 accordingly provides that if the Bishop of Calcutta refuses to agree to an alteration of Rule 25 in this sense, the Archbishop of Canterbury, or failing him, some other person appointed either by him or by the Governor-General in Council and the Bishop of Calcutta, may be called in as arbitrator.

9. Draft Rules 27—29 are intended to provide a remedy in the case of breaches of the Rules by the Indian Church. The main remedy provided is a reference to arbitration in accordance with Rule 26. But in the very last resort Rule 29 provides that the Governor-General in Council with the sanction of the Secretary of State may resume all Maintained Churches vested in the Crown. In that event the Rule states that 'such of them as are duly consecrated shall be held in trust for the purposes of the Church of England and shall be freed from any claim by the Indian Church or officials or members therefor'. The wording of this part of the Rule is still under consideration and may require alteration: as it stands at present, it is identical with that of clause 4 (3) of the Bill. At first sight it would appear, therefore, that the ultimate sanction for a breach of the Rules is precisely the same as that provided for a breach of communion between the Indian Church and the Church of England and that in the event of Rule 29 being put into operation the Church of England could re-enter India as a Church and take possession of the resumed Churches. But the Rules must be read in the light of the fundamental principle that the Church of England can re-enter India as a church only if the Indian Church has ceased to be in communion with it. The practical result of putting Rule 29 into operation, therefore, would be that the Secretary of State would be able to introduce Army Chaplains into India, and these Chaplains would minister in Military Maintained Churches. In the circumstances set up by the necessity of putting Rule 29 into operation, it would probably be also possible to arrange under Rule 26 for the special episcopal supervision of these Chaplains. As regards other Churches for which Army Chaplains would not be available, the position would be more difficult. They would be withdrawn from the Indian Church and would be held in trust for the purposes of

the Church of England. But in view of the fundamental principle referred to above, it is doubtful whether the Archbishop of Canterbury would send out clergymen of the Church of England to minister in them.

10. This difficulty is inherent in the problem. If the Church of England can re-enter India as a Church only in the event of a breach of communion with the Church, clearly the ultimate sanction for a continued breach of the Rules by the Indian Church must be something short of re-entry by the Church of England. But the Government of India are satisfied that the continued breach of the Rules which Rule 29 contemplates is not in the least likely to occur. For the Indian Church will be bound to the Government of India by many ties, and there are many visible and invisible sanctions for the Rules. To begin with, Rule 29 itself is a considerable safeguard against any such continued breach of the Rules. For the Indian Church could not contemplate with equanimity the formal removal of many Churches in India from its control. The moral damage which it would sustain, if the Government of India were compelled to take this extreme step, would be very great. Moreover, the Church would forfeit all claim to financial assistance from Government and in addition would alienate many of its most generous supporters. Moreover, apart from Rule 29, there are safeguards provided by the Church itself in its own Constitution. I am to refer in particular to Preliminary Declaration No 15, to Canon I of Chapter XIII and to Canon II of Chapter XXI. One of the principles accepted by the Church as governing its constitution is that 'so long as it includes congregations of British-born people who desire the services and customs of the Church of their native land as well as others who in this country have always been accustomed to such services in the English language, it will provide that the worship in the Churches frequented by such congregation shall be, as nearly as circumstances permit, similar to that in use in the Church of England'. The Government of India understand that the Church is willing to make this Preliminary Declaration capable of alteration only by much the same procedure as that prescribed in Part (*a*) of Preliminary Declaration 19. Canon II of Chapter XXI again secures the use of the Book of Common Prayer in the English language not only in Maintained Churches but also in Churches 'where those congregations worship which consist wholly or predominantly of persons brought up in the Church of England or of other persons who are accustomed to the use of the Book of Common Prayer in the English language'. Finally, every Bishop before consecration will be required formally to declare his assent to the Preliminary Declarations and his willingness to be bound by the Canons and Rules of the Church. The cumulative effect of all these safeguards taken together is very great, and the Government of India are satisfied that the Rules and the Constitution of the Church between them provide every practicable safeguard against a contingency which in itself is exceedingly unlikely to occur.

11. Draft Rule 30 which provides that the Governor-General in Council, with the sanction of the Secretary of State, may give five years' notice of his intention to terminate the arrangements embodied in the Rules, must also be read in the light of the observations made in the previous paragraphs. In the event of such notice being given, all Military Maintained Churches may be resumed, and such Churches could then be manned by Chaplains of the Royal Army Chaplains Department. The Rule will operate in two ways. It will enable the Government of India to terminate the arrangements if they prove to be unsatisfactory, and further the mere fact that such power is reserved to the Government of India will facilitate the alteration of the Rules, if alteration is found to be necessary.

12. I am next to invite attention to the proposed clause 4 (4) of the Bill which excepts certain cathedrals from resumption of control. The clause is at present in a purely provisional form, and the arguments for and against its retention are evenly balanced. On the one hand it might be said that as the great majority of persons attending services in these cathedrals are members of the Church of England temporarily resident in India and since the cathedrals themselves have been regarded as embodying in a peculiar degree the connexion with the Church of England, the sub-clause should be omitted from the Bill. Further, it must be remembered that this sub-clause will come into operation only in the event of a breach of communion between the Church of England and the Indian Church. If such a breach of communion occurs therefore, it might be urged that these cathedrals should revert to the Church of England in India. On the other hand, it has been pointed out that the loss

of the cathedrals would constitute the most damaging blow to the prestige of the Indian Church. The practical importance of the sub-clause is small, since in the view of the Government of India it is most unlikely that it will ever be put into operation. At the same time, I am to ask for the opinion of the Government of..... whether the sub-clause should be omitted or alternatively whether it should be retained with the addition of the word 'Calcutta.' If the cathedrals in Bombay, Nagpur and Madras are exempt from this resumption of control, it is not easy to see why the cathedral at Calcutta should not similarly be exempt.

13. There is one more point which ought to be mentioned. In paragraph 1 above the Government of India have said that in 1923 the draft Measure was approved by all Diocesan Councils except two. The proposals were again laid before the Diocesan Councils in 1925 and then they were approved by all Diocesan Councils without exception. They were also approved by practically the unanimous vote of the Provincial Council in January last, and it may be taken that the opinion of the Indian Church as expressed in the manner provided for by its constitution is solid in favour of the proposals. I am also to add that the proposals have received the approval and support of the Archbishop of Canterbury.

14. I am to apologise for the length of this letter. But in view of the extreme complexity of the case, the Government of India have thought it advisable to set out a full exposition of the proposals. I am now to ask that the Government of..... ..... will examine the documents forwarded with this letter in the light of these remarks, and will let the Government of India have their views as soon as possible. The Government of India would be very grateful if the Government of..... would make it convenient to send a reply with the least possible delay. If it is finally decided to proceed with the necessary legislation, it is very desirable that this should be secured from Parliament next year; and in this event the Secretary of State is anxious to have the matter before him in final form within the next 2 or 3 months.

(*b*) Any such scheme shall be published in the Gazette of India.

The expression "Bishop of Calcutta" means the Bishop of Calcutta for the time being, whether called Bishop or Archbishop or by whatever name called.

The expression "General Council" means the body recognised as such by the Bishop of Calcutta.

The expression "date of severance" means such day not less than two years or more than three years after the coming into operation of this Measure as the Governor-General of India in Council at the request of the General Council shall fix.

Dissolution of union between the Indian Church and the Church of England.

2. Upon the date of severance the union legally existing between the Indian Church or any part thereof and the Church of England shall be dissolved, and—

(i) The enactment mentioned in the first column of the Schedule to this Measure shall be repealed to the extent mentioned in the third column of the said Schedule.

(ii) The Metropolitan Bishop of the Indian Church shall cease in contemplation of law to be subject to the general superintendence and revision of the Archbishop of Canterbury, and the obtaining of the Royal Mandate to consecrate shall not be necessary in the case of the consecration of a Bishop for a charge in India, nor shall the Bishops in Foreign Countries Act, 1841, apply to the consecration of any such Bishop, nor shall any Bishop of any Diocese in England have any jurisdiction over the Indian Church in India.

(iii) No ecclesiastical court or official of the Indian Church shall have or exercise any coercive jurisdiction.

(iv) The ecclesiastical law of the Indian Church shall cease to exist as law; and no proceeding by way of re-hearing or appeal from any decision, judgment, sentence, decree or other order of any ecclesiastical court or official of the Indian Church shall be entered, admitted, prosecuted, heard or determined in, by or before any of His Majesty's Courts of Justice in India or elsewhere, any Court of Commissioners Delegate in India or His Majesty in Council.

(v) The rules of the Indian Church shall be binding on the members thereof for the time being in the same manner as if they had mutually agreed to be so bound and shall be capable of being enforced in the temporal Courts in relation to any property lawfully held on behalf of the said Church or any members thereof in the same manner and to the same extent as if such property had been expressly assured upon trust to be held on behalf of persons who should be so bound.

As in the respects particularly in this section mentioned so in all other respects the Church of England and the Indian Church shall as from the date of severance be legally severed, separate and distinct and every law and custom shall, except as in this Measure expressly provided, be interpreted and applied accordingly.

Provisions for the constitution of the Indian Church.

5. (i) From and after the coming into operation of this Measure nothing in any Act of Parliament, law or custom shall prevent the bishops, clergy and laity of the Indian Church from holding synods, councils or assemblies, or electing representatives thereto or from framing either by themselves or by their representatives elected in such manner as they think fit, rules for the general management and good government of the Indian Church and the property and affairs thereof, whether as a whole or according to provinces or dioceses or any other areas, and the future representation of members thereof in any general, provincial or diocesan synod, council or assembly or otherwise.

(ii) The General Council shall as from the coming into operation of this Measure have authority to make, amend, or repeal rules for the general management and good government of the Indian Church and the property and affairs thereof, and further to provide, as such General Council may think fit, for the future making, after the date of severance, of rules for the general management and good government of the Indian Church and the property and affairs thereof, whether in respect to the whole of the Indian Church or according to provinces or dioceses or other areas.

(iii) Any rule of the Indian Church made by any synod, council, assembly or officer thereof shall not after the date of severance be subject to any legal limitation in respect to scope or effect (whether arising from the operation of an Act of Parliament or otherwise) other than such as would apply to the like rule if made by a voluntary association altogether distinct from the Church of England which should have come into existence on the date of severance:

Provided always that nothing in this section shall be deemed to confer upon the General Council or enable it to confer upon any other person or body of persons any coercive jurisdiction without prejudice however to the operation of the law relating to obligations binding on persons who shall be deemed, in accordance with sub-section (v) of section 2 of this Measure, to have mutually agreed to be bound by any such rule.

Membership of the Indian Church, how proved.

4. (1) If for any temporal purpose in connexion with this Measure, or if in any proceedings in any temporal Court, it shall be necessary to determine whether any person is, or at any past date was, a member of the Indian Church or of any Church in communion therewith, a certificate under the hand of the Bishop of Calcutta stating that such person is or is not, or was or was not, on a named past date a member of the Indian Church or of a Church in communion therewith, shall conclusively determine the fact stated therein.

(2) A certificate purporting to be made and signed by the said Bishop shall be deemed to have been made and signed by him until the contrary be shown.

Recognition of General Council.

5. (1) The recognition of the General Council as such by the Bishop of Calcutta shall be sufficiently proved for all purposes by an expression of that recognition in writing under the hand of such Bishop; and if any question at any future time shall arise as to whether any assembly was or was not the General Council for the purposes of this Measure, whether generally or on a particular occasion or at a particular time, such question shall be referred to the Bishop aforesaid and by him finally decided.

(2) (i) A document purporting to be a writing under this section and to be signed by the Bishop of Calcutta shall be deemed to be such and to have been made and signed by him until the contrary be shown.

(ii) No proceedings of the General Council in pursuance of this Measure shall be invalidated by any vacancy in the membership of that Council or by any defect in the qualification or election of any member thereof.

Saving rights of Bishops.

6. Nothing in this Measure or in any Act of Parliament shall prevent any person who is or has been Bishop of any diocese in India from performing episcopal functions, not extending to the exercise of jurisdiction, in any diocese or reputed diocese at the request of the Bishop thereof.

Date of coming into operation.

7. This Measure shall come into operation on a date to be fixed by His Majesty in Council, being the date fixed for the coming into operation of the Indian Church Act, 192 .

(See para. 5 of Appendix I.)

Of Chaplains.

1. No Chaplain appointed by the Secretary of State in Council from among the Clergy of the Church of England or any Church in communion therewith shall minister in any Maintained Church in any diocese in India unless he has obtained and holds a licence to officiate (hereinafter called a licence) from the Bishop of the diocese concerned. Every such Chaplain as a condition of obtaining such licence shall make the declarations required to be made by the Canons of the Indian Church before a licence is granted. Such licence when requested shall not be withheld except on account of the Chaplain's refusal to make any of the said declarations or for reasons for which under the law for the time being in force in England a Bishop of the Church of England may refuse to institute or admit a clergyman presented to a benefice in England (other than reasons concerning the transfer of the right of patronage). If any Bishop of the Indian Church withholds a licence for which request is made by a Chaplain either on first appointment as Chaplain or on transfer from one diocese to another, the Chaplain may appeal either to the Bishop of Calcutta or, if the Bishop of Calcutta is the Bishop who has withheld the licence, to the Bishop of Madras or the Bishop of Bombay, whichever is senior by consecration. If any such appeal is allowed, the Bishop who has withheld the licence shall thereupon grant it. Provided that a Chaplain working in India at the date of severance and holding a licence from the Bishop of his diocese shall not be required to obtain a new licence unless and until he is transferred to another diocese.

2. Every Chaplain shall be under the episcopal supervision of the Bishop whose licence he holds, and his successors.

3. No Chaplain shall undertake any work other than that of ministering to His Majesty's troops and the servants of the Crown and their families if either the Bishop or the Governor-General in Council objects to his undertaking such work.

4. Subject to the provisions of Rule 5, no Chaplain shall officiate as a minister of the Indian Church except in so far as he may be authorized so to officiate in accordance with the rules for the time being of the Indian Church; nor shall any Chaplain administer or perform any sacrament, rite, ceremony, solemnization of marriage, service or religious ministration of any kind purporting to be a sacrament, rite, ceremony, solemnization, service or religious ministration of the Indian Church except in conformity with the rules for the time being of that Church.

5. Every Chaplain shall have the right to use the services contained in any Book of Common Prayer from time to time authorized in England when ministering in a Maintained Church or elsewhere to a congregation which includes members of the Church of England temporarily resident in India and which worships in the English language, and no Chaplain shall, by reason of exercising this right, notwithstanding anything in the Constitution, Canons or rules of the Indian Church, be liable to any ecclesiastical penalty, censure or disability whatsoever, nor shall any authority of the Indian Church hinder any Chaplain in the exercise of such right.

6. Subject to the provisions of Rule 1, Chaplains shall be posted by such person or persons as the Governor-General in Council after consultation with the Bishop of Calcutta shall appoint.

7. The Governor-General in Council shall facilitate the attendance of Chaplains at Diocesan Councils when summoned by the Bishops.

8. Before commencing proceedings or allowing proceedings to be commenced against any Chaplain before any Ecclesiastical Court, the Diocesan Bishop concerned shall notify the Local Government concerned of his intention so to do, and shall give the fullest consideration to any representation on the subject that may within four weeks of such notification be made to him by the Local Government.

9. Before withdrawing the licence of any Chaplain the Diocesan Bishop concerned shall communicate in confidence in such way as he thinks fit with the head of the Local Government concerned, and shall, if desired, discuss his intention privately with such head.

Of Maintained Churches.

10. The Churches entered for the time being in the Second Schedule to the Indian Church Act shall be maintained and repaired at Government expense, provided that nothing in this rule shall impose any liability on Government to repair any Church when before the passing of the Act such Church was not repaired at Government expense.

11. The Governor-General in Council may remove any Church from the list contained in the Second Schedule to the Indian Church Act by agreement with the Bishop of Calcutta or by 12 months' notice expiring with the end of a financial year, provided that such notice shall not be given unless he has notified his intention to do so to the Bishop of Calcutta and allowed him a reasonable opportunity of showing cause against such removal.

12. The Governor-General in Council may with the concurrence of the Bishop of Calcutta add any Church to the list, transfer any Church from one subdivision of Part I of the list to another, or replace on the list any Church which has been removed in accordance with Rule 11, and such addition or replacement shall take effect from the beginning of a financial year.

13. The Governor-General in Council shall, before the end of March in each year, send to the Bishop of Calcutta a correct list of Maintained Churches for the ensuing financial year.

14. If the Governor-General in Council removes a Church from the list for the time being of Maintained Churches, such Church if at that time vested in the Crown shall vest in the Indian Church Trustees, provided that if the Governor-General in Council shall so require, the Indian Church Trustees, shall hold it upon the trusts following, namely :—

(1) Upon trust to permit the services of the Church of England as contained in any Book of Common Prayer from time to time authorised in England or any of them to be performed in that Church for any congregation which includes members of the Church of England domiciled in the British Isles (*a*) if a majority of the members of the congregation so domiciled or a majority of the members of the congregation worshipping in that Church in the English language desire such services, and (*b*) if and so long as the congregation is willing to contribute an equitable sum to be determined by the Bishop of the Diocese towards the cost of such services and towards the maintenance and repair of the Church ;

(2) Upon trust to arrange for such services to be held at such times as are convenient to congregation :

Provided further that if during a period of seven consecutive years, which period may include any period previous to the date of severance, no services has been held in any such Church, such Church shall be held freed and absolved from the trusts (if any) above specified.

15. Subject to the provisions of these Rules the Churches from time to time entered in the list of Maintained Churches shall be available for the services of the Church of England as contained in any Book of Common Prayer from time to time authorised in England.

16. The services mentioned in Rule 15, when performed in a Maintained Church, shall be performed in such manner and according to such rules and by such persons as may be agreed as being in accordance with the practice of the Church of England by the Governor-General in Council and the Bishop of Calcutta, or, failing agreement, as may be determined by the Archbishop of Canterbury.

17. Subject to the provisions of Rules 15 and 21, a form of service or a form of part of a service authorized in India but not in England may be used in a Maintained Church, if the Chaplain or Minister in Charge of that Church and the Church Committee desire it.

18. (1) Forms of service authorized by the Bishop of Calcutta or the Bishop of the Diocese either (i) for special occasions at the request or with the consent of the Government of India or any Local Government or (ii) for troops at the request of the Commander-in-Chief in India, may be used in Maintained Churches either in addition to the Church of England services or in substitution therefor.

(2) Special Collects for occasions or subjects peculiar to India may, on the appropriate occasions, be either substituted for prayers in the Church of England services or be added to those services.

19. Subject to the provisions of Rule 18, no service or part of a service which is not either contained in any Book of Common Prayer from time to time authorized in England or authorized by the Indian Church shall be used in a consecrated Maintained Church except when the Church is lent to some other Church or denomination.

20. No sacrament, rite, ceremony, solemnization of marriage, service or religious ministration of any kind purporting to be a sacrament, rite, ceremony, solemnization, service or religious ministration of the Indian Church shall be administered or performed in any Maintained Church except in conformity with the rules for the time being of the Indian Church.

21. The services of the Church of England shall, in every Maintained Church have the first claim to the hours of service on every Sunday and Holy Day, and the times at which they shall be held shall be those most convenient to the congregation attending the Church of England services which are conducted in the English language in that Church. The hours shall be fixed by the Chaplain or Minister in charge in consultation with the Church Committee, and, in the case of services for troops, the Officer commanding the station.

22. No congregation which at the date of severance had a customary right to worship in a Maintained Church shall be prevented from so doing.

23. The practice or practices followed by the Church of England in India with regard to the marriage of persons in Churches during the 20 years preceding the date of severance, including those relating to the marriage in Church of divorced persons and to marriages between persons within the prohibited degrees, shall continue to be followed in Maintained Churches unless and until they are modified by the Indian Church, but no person whose domicile is outside India shall

be debarred by any rule made by the Indian Church from being married in a Maintained Church who would have been entitled to be married in such Church by the rules as followed before the date of severance.

24. The arrangements made for the loan of Churches which have been consecrated for the use of the Church of England which are in force at the date of severance shall be carried out by the Church in India unless varied by mutual consent of the Governor-General in Council and the Bishop of Calcutta.

Of Episcopal Supervision and Ministrations.

25. The Indian Church shall provide episcopal supervision for Chaplains and episcopal ministrations for the congregations worshipping in Maintained Churches, and the Governor-General in Council shall make such grants as he may think fit to the Church in consideration of such episcopal supervision and ministrations.

Alteration of Rules.

26 If the Bishop of Calcutta refuses to concur in an alteration of these rules proposed by the Governor-General in Council, with the sanction of the Secretary of State in Council, as regards the episcopal supervision of Chaplains ministering to troops, the Governor-General in Council may, if he thinks fit, require the matter to be referred to arbitration of the Archbishop of Canterbury, or, if he be unwilling to act, some person appointed by him, or, if he fails to make such appointment, a person appointed by the Governor-General in Council and the Bishop of Calcutta, and in the case of such reference the decision of the arbitrators shall be final.

Breaches of the Rules.

27. (1) If it shall appear to a Local Government that any officer of the Indian Church has committed a breach of these rules, it shall report the same to the Bishop, who shall take such steps as he thinks fit to ensure their observance, and if a Local Government considers that a Bishop is permitting or himself taking action contrary to these rules, or has failed to ensure observance of the rules, the Local Government may request the Governor-General in Council to bring the matter to the notice of the Bishop of Calcutta, who shall thereupon take such steps as he thinks fit to ensure the observance of the rules.

(2) In like manner the Governor-General in Council may of his own motion bring any alleged breaches of the rules to the notice of the Bishop of Calcutta, who shall thereupon take such steps as he thinks fit to ensure their observance

(3) The Governor-General in Council, whether acting of his own motion or at the request of a Local Government, shall give the Bishop of Calcutta an opportunity of taking action with regard to such alleged breaches, before he proceeds to act under the next following rule.

28. (i) If after bringing alleged breaches of these rules to the notice of the Bishop of Calcutta, the Governor-General in Council shall be of opinion that such breaches continue to be committed, whether with the knowledge of the authorities of the Indian Church or through their default or neglect, or otherwise, or (ii) if he shall be of opinion that the Indian Church is so administered that the general intention of these rules is frustrated, and if, in either case, the Bishop of Calcutta differs from the opinion of the Governor-General in Council, the matter or matters in question shall, with the sanction of the Secretary of State in Council, be referred to arbitration in the manner provided by rule 26, and the decision of the arbitrators shall be final.

29. If the arbitrator shall find that a breach of these rules has been and is being committed or that the Indian Church is so administered that the general intention of these rules is frustrated and that the default is such as to justify the Secretary of State in Council in terminating the arrangements with that Church embodied in these rules, then the Governor-General in Council, with the sanction of the Secretary of State in Council, after considering any suggestions of the arbitrator for remedying the default, may at his option either at once declare that all the Churches entered at that time in Part I of the Second Schedule to the Act shall at the expiration of twelve months from the date of the arbitrator's award vest in the Crown or such person or persons as the Governor-General in Council may appoint for an absolute estate in possession, and such of them as are duly consecrated shall be held in trust for the purposes of the Church of England and shall be freed from any claim by the Indian Church or officials of members thereof, or give notice to the Bishop of Calcutta that unless action to remedy the default is taken to his satisfaction within twelve months from the date of his notice, the Churches shall, at a date to be fixed by him after the expiry of these twelve months, vest as above provided.

Special Provision for Termination of the arrangements embodied in these rules by the Secretary of State.

30. The Governor-General in Council, with the sanction of the Secretary of State in Council, may at any time give five years' notice to the Bishop of Calcutta that he intends to terminate the arrangements embodied in these rules, and in that case the Churches included at the date of the notice in Part I-A of the Second Schedule to the Act shall vest forthwith on the expiration of the notice in the manner and under the conditions prescribed in Rule 29.

No. 1347.—The Board of Commissioners for Hindu Religious Endowments brings to the notice of Government that Sri Venkatachalapathiswami temple at Marungapettai and Sri Iswarar temple at Kiliyanallur are under the control of the Trichinopoly Taluk Hindu Devasthanam Committee. As the annual income of each of these temples is less than Rs. 250 a year the provisions of the Madras Hindu Religious Endowments Act do not ordinarily apply to these temples—vide sub-section (3) of section 2 of the Act. The Board thinks, and the Committee agrees that in the interests of the proper administration of these temples it is desirable that the provisions of the Madras Hindu Religious Endowments Act, 1923, should be applied to them. The Board therefore requests the Government to apply to these two temples all the provisions of the Act except section 85 (1) which relates to the levy of contributions towards the expenses of the Board. Before issuing a notification under the proviso to sub-section (3) of section 2 of the Act as desired by the Board, the Government desire to know whether any trustee of either of these two temples or any worshipper, has any objection to urge against such application. If no valid objection is received by the Government within a month from the date of the publication of this notification in the District Gazette, the Government will proceed to issue a notification under the proviso to sub section (3) of section 2 of the Act applying all the provisions of the Act except section 85 (1) to the said two temples.

No. 1352.—The following draft of a rule which the Local Government propose to make under sub-section (1) of section 304 of the Madras District Municipalities Act, 1920, amending Schedule V to the said Act is hereby notified for general information under clause (a) of section 305 of the said Act. It will be further proceeded with after six weeks from the date of publication of the notification in the *Fort St. George Gazette*.:—

DRAFT RULE.

The words "manufacturing besides" shall be added after the words "manufacturing artificial manure" in item (A) of Schedule V to the Madras District Municipalities Act, 1920.

Fort St. George, November 19, 1926
(*G.O. No.* 4938, *L. & M.*).

No. 1353.—Under rule 6 of the rules relating to the appointment and punishment of municipal servants as amended in G.O. No. 94, L. & M., dated 8th January 1924, a Government officer lent to a municipal council has no right of appeal against any order of the chairman inflicting a punishment of fine unless the fine or the total amount of the fines inflicted on him in one month exceeds one-tenth of his monthly salary. Rule 12 of the rules relating to the appointment and punishment of local board servants is similar in so far as the right of appeal is concerned but under it the President of a Taluk Board in the case of Union Board servants, the President of a District Board in the case of Taluk Board servants and the Standing Appeal Committee in the case of District Board servants may exercise a power of revision and modify or cancel an order inflicting a punishment of fine. A servant of a local board can therefore apply for the revision of the order if a fine is imposed upon him whatever the amount of fine may be, while a servant of a municipal council has a right of appeal only if the fine or the total amount of the fines inflicted on him in a month exceeds one-tenth of his salary.

2. The Government consider that this disparity between the two sets of rules should be removed and accordingly propose to amend rule 6 of the rules relating to the appointment and punishment of municipal servants so as to provide for a revision by the Standing Appeal Committee of orders imposing fines upon municipal servants. The appended notification will be published in the *Fort St. George Gazette*.

3. Presidents of local boards and chairmen of municipal councils are informed that Government servants lent to local bodies will be entitled to send their revision petitions against punishments of fines, through their departmental superiors.

APPENDIX.

NOTIFICATION.

The following draft of an amendment to the rules for the appointment and punishment of municipal servants published with the notification of the Local Government in the Local and Municipal Department No. 226 at pages 138–139 of Part I-A of the *Fort St. George Gazette*, dated 21st March 1922, as subsequently amended which the Local Government propose to make under sections 75 and 303 of the Madras District Municipalities Act, 1920, as published as required by section 305 of the said Act, and notice is hereby given that the said draft will be taken into consideration by the Local Government after six weeks from the date of publication of this notification.

Any objection or suggestion which may be received from any person with respect to the draft before the said date will be considered by the Local Government.

Draft Amendment.

For rule 6 of the said rules the following shall be substituted, namely :—

"There shall be no right of appeal against any order of the chairman inflicting a punishment of fine, but the Committee referred to in rule 8 may, if it deems fit, exercise a power of revision and modify or cancel such order."

UNIVERSITY OF MADRAS.

NOTIFICATIONS

Instructions to candidates appearing for the examinations to be held in 1927.

Candidates for University Examinations are required to observe the following instructions very carefully :—

1. Strict silence should be maintained in the examination room.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for giving out the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to each paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. *Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so, their answers will not be valued, and their conduct will be reported to the Syndicate for disciplinary action.*

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, slate, manuscript, or paper of any description; from communicating with or copying from each other, and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be sent out of the room forthwith, and his conduct will be reported to the Registrar. The use of stencils at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates in groups (i) and (ii) of the Intermediate, B.A., B.Sc. (Ag.), B.Sc., B.A. (Honours) Examples I and II, and M.A. Branch I only Degree examinations and first M.B. & B.S. examination.

An 'earnest' fee of an amount equivalent to the cost of a copy of Mathematical Tables should be deposited with the Chief Superintendent by each student requiring the use of such books, the amount to be refunded on the book being returned. The cost price of each book is 7 annas.

9. Candidates for the B.A. Degree Examination under Groups (II-A) and (II-B) are required to submit their laboratory note-books both in the main and the subsidiary subjects to the Examiners concerned on the first day of the practical examination, and to get them back at the close of the examination. This instruction applies only to candidates appearing from colleges.

10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink bottles. They must, however, use only black ink while answering their question papers.

11. Particular attention is requested to the instructions, regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Paper must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. As soon as candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period prescribed for

each particular part of the examination, each should stand up in his place and remain standing until one of the superintendents has gone up to him and has received his answer book from him.

13. Communications to the Registrar from candidates requesting information relating to the results of examinations will not receive attention until after the publication of the results in the *Fort St. George Gazette*.

14. The hall tickets of candidates sitting for the examinations at Madras will be ready for distribution at the Senate House four days before the date of each examination. Candidates sitting for the examinations at centres other than Madras should apply to the Chief Superintendent of the respective centre for their hall tickets.

15. *No College student will be allowed to select a centre for his examination other than that in which the College he studies is situated, except for satisfactory reasons and on the recommendation of the Principal of his College.*

16 *Candidates appearing at centres where they are not known must be prepared to satisfy the Chief Superintendents of such centres as to their identity. NOTIFICATIONS.

[G.O. Ms. No. 1363, Law (Education), dated 17th July 1926.]

The following amendments are made to the European Schools Examination Regulations and Syllabuses approved in G.O. No. 1925, Law (Education), dated 21st October 1924:—

In the Regulations for the Middle School Examination on page 3 under Group A—Compulsory *add* "3. A Language" and under II General for the first paragraph *substitute* "The language presented in Group A must be a South Indian Language unless for good and sufficient reasons specific permission has been granted to a candidate by the Inspector of European Schools to present a language other than a South Indian Language. Such permission will not however be granted on the ground that the candidate intends to proceed to an Indian University."

Under Group B—Optional *delete* "5 A Language" and *renumber* the remaining subjects.

From page 9 of the Regulations and Syllabuses *transfer* "5. Language" to page 5 after Arithmetic and *renumber* it "3. Language", and *renumber* the remaining B—Group subjects.

In the Regulations for the High School Examination on page 17 under Group A—Compulsory *delete* "Second" and under 3 *delete*

"NOTE.—(The second language must be ———— by the Inspector of European Schools)"

Under Group B—Optional *add* "1. A Language" and *renumber* the other subjects.

Under II General *add* two new paragraphs "Group A 3. The language must be a South Indian Language unless special exemption has been granted by the Inspector of European Schools and permission given to present a language other than a South Indian Language. Exemption may be granted for the reason of proceeding to a University.

"Group B. 1.—The language presented may be a South Indian, a modern European or a classical language but shall not be the same as that presented under Group A. 3."

On page 21 under Group B—Optional subjects *insert* "1. Language. The syllabus is the same as for subject Group A 3" and *renumber* the rest of the B Group subjects.

Page 20 *delete* "Second" before "Language".

These modifications will be effective for the examinations of 1928.

GOVERNMENT SCHOOL OF COMMERCE, CALICUT.

TERMS:—JULY TO DECEMBER AND JANUARY TO APRIL.

Admission in January 1927.

The school re-opens on the 3rd January 1927 after the Christmas vacation.

Admission.—Admissions are generally open only to those who have at least been students of the Fifth form for a full year in a recognized High School. This is generally the minimum general education qualification necessary for admission into the school. A fair knowledge of English, at least such as that ordinarily possessed by a qualified Secondary School-Leaving Certificate-holder, is necessary to undergo the course with profit. The higher the general education qualification, the greater, of course, will be the benefit derived from the training given in the school and the capacity to utilise that training to advantage.

Scholarships.—Rupees three a subject per term, except Typewriting payable in three equal instalments in the months of July, August and September, and in January, February and March. The fee for Typewriting is Rs. 12 per term payable similarly. The same rate of fees is charged for both the grades.

Subjects and Courses.—In the English Department instruction is given in the following six subjects, and students are prepared for the Government Technical Examinations in the Lower and Higher Grades in each:—

(1) Book-keeping,
(2) Theory and Practice of Commerce,
(3) Banking with Economics,
(4) Commercial Geography,
(5) Shorthand (Pitman's system),
(6) Typewriting.

Each of the grades in a subject generally takes a year.

Time-table.—The time-table is so arranged as to enable a beginner to take up almost all the subjects taught in the school in one and the same year. Students of the Typewriting class are divided into batches, each batch getting an hour's practice every school day. This class is held from 7-45 to 10-45 a.m. and from 3-30 to 7-30 p.m. The other classes are held from 7-45 to 9-45 a.m. and from 4-30 to 7-30 p.m.

Almost all the classes are held both in the morning and evening hours to afford convenience specially to students of day schools and employees in offices to join the school.

Vacations.—The Government Technical Examinations *in all the subjects* under 'Commerce' are held towards the end of April every year, and the school closes immediately thereafter for the "summer vacation and re opens early in July. The examinations in Shorthand and Typewriting are held in December also. The Selection Examination is held before the 18th December, after which the Christmas vacation begins. Those that wish to begin the study of commercial subjects will, therefore, ordinarily be admitted in July every year; and such students must join early, *at least before the 15th of the month.*

Beginners will be admitted in *January also* into the Shorthand and Typewriting classes, and they will be prepared for the examinations of December 1927, lower grade. Of course, those that have already had a course of training in the other subjects for a year or so will also be admitted and prepared for the Higher Grade or Lower Grade examinations of April 1927

N.B.—It is specially pointed out that beginners as well as others will get themselves admitted at least before the 10th January 1927, on which date regular classes are expected to begin work.

L. T. ANANTANARAYANA SASTRI,
Headmaster.

Govt. School of Commerce, Calicut,

AUCTION FOR SUPPLY OF RATIONS AND MISCELLANEOUS ARTICLES TO THE CENTRAL JAIL, VELLORE.

Notice is hereby given that the Superintendent will hold an auction at the Central Jail, Vellore, on Wednesday, 8th December 1926, at 2 p.m. for supply of the following articles of rations for three months from 1st January to 31st March 1927. Intending bidders are requested to be punctual. In the case of suppliers who may be unable to attend the auction, sealed tenders will be accepted, provided they reach the Superintendent on or before the day and hour mentioned above, and are accompanied by the earnest money specified in the schedule. Tenders which will only be received on printed forms to be had free of cost on application, should be superscribed "Tender for supply of rations and miscellaneous articles to the Central Jail, Vellore." They will be opened at the time of auction and the offered rates considered along with the bids. The rates should be quoted in pounds and ounces per rupee for delivery at the Central Jail, Vellore, the quantities being specified in words as well as in figures. Samples of the articles required can be seen at the auction. Suppliers may bid on tender for all or any one of the articles mentioned in the schedule on depositing the requisite earnest money. All supplies must be up to the samples accepted by them or approved by the Superintendent.

2. Successful bidders or tenderers will be required to enter into stamped agreements with the Jail within seven days from the date of receipt of intimation by them that their rates have been accepted. In addition, they should before signing such agreements deposit a security of 10 per cent of the total value of the supplies undertaken. (With the approval of the Inspector-General of Prisons, the total amount may be reduced in the case of approved contractors). Failing compliance within the time specified, the earnest money may be confiscated, and in the event of withdrawal they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the Jail. The earnest money received from successful bidders or tenderers will be taken towards their security deposits and those from other returned at the close of the auction. The earnest money will not be received in cash but should be deposited in the Bank in the name of the Superintendent, Central Jail, Vellore, and a receipt for the amount handed over at the time of entry into Jail for auction.

3. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

4. Contracts should not be sublet.

5. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringements.

6. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract plus so much as may be needed to last for a whole month thereafter provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

7. No article is to be supplied to the Jail except on a requisition signed by the Superintendent, or some responsible person authorised by him in writing to do so "by order."

8. No advance of cash will on any account be made to the contractors when giving orders, nor will the Jail pay freight or other charges on consignments to be afterwards deducted from bills, but payment for articles delivered at the Jail on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees, to a fraction equivalent to half rupee or more, when they will be treated as a whole rupee for the purposes of the account.

9. During the prevalence of plague in the vicinity of the Jail or in that of the areas from which supplies are drawn, all grain, etc., will be liable to

be first exposed to the sun outside before being taken in. Also if for any other reason the Superintendent considers exposition of articles to sun necessary.

10. Contractors are required (under a penalty not exceeding Rs. 25) to invariably send with each supply a memorandum or advice note, duly signed, showing the number of quantity tendered for acceptance. Also to sign and return within a week of payment by cheque, cash order remittance, transfer receipts or all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any difference in prices that may be recoverable from the contractors on account of purchase rendered necessary elsewhere by failure, neglect, or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also annul it, recovering all losses sustainable by the Jail in consequence of the annulment, from the security deposited by the contractors, or other monies due to them, and, in the event of any residue, by legal measures, if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

13. Further information on any point concerning this notification can be had from the Jail office.

14. When once the rates offered at an auction or by tender have been accepted, lower quotations from others to the Superintendent or to the Inspector-General of Prisons will not be considered.
